——FORT ST. GEORGE, JANUARY 1743-44——

[The] Increase on Grain Chiefly Arises from the Difference the price, being 23 P^{s}. ℔ Garce the former Year, and this Year P^{s}. 29 ℔ Garce.

[The] Decrease on Goods proceeds mostly from the pattanners bringing their Bengall Goods last year from S^{t}. Thoma upon the Apprehension of Troubles they should meet with from the Country Government. What has been Imported this Year have been only from our Own Inhabitants. Also a Difference of about Four of (*sic*) Five Hundred pagodas in the Quantitys of Coral ; Some by Missing the Port having been gone to Bengal what is and may be return'd will be brought into the Ensuing Year.

Here have been neither Tin, Teeth, Wax, Cardamums &c^{a}. from Pegu this Year as formerly, had not these things happend, this whole Year's Sea Customs might perhaps have Amounted to near as much as the Year 1737.

The Decrease on the Anchorage being 57. 18. — is from a less Number of Boats and Vessels Imported.

AT A CONSULTATION

Present

NICHOLAS MORSE ESQR. GOVERNOUR PRESIDENT.
WILLIAM MONSON. THOMAS EYRE.
EDWARD HARRIS. WILLIAM JOHNSON.
JOHN SAVAGE. SAMUEL HARRISON.

MONDAY THE 23D.

The two last Consultations read & signed.

General Letter N°. 7 from Mr. Andrews at Maddepollam of the 5th. instant, inclosing the Accounts of that Settlement for last month. Letter from Madapollam with monthly Papers.

William Monson Import Warehousekeeper pays in Eleven thousand, 11000 Pagodas on Account of Silver Sold. Money paid in on Acct. of silver sold.

Agreed and Ordered that the Import Wareh°.kr. buy two New Carpets for the Consultation Room and that Rattan Matts be made to lay under them for their greater preservation. Two Carpets to be bot. for the Consultation Room.

Having promised Our Honourable Masters by the Ships lately dispatched to give them our Sentiments on the Letter received from the Mayor's Court & to acquaint them how far we should be inclined to comply with their request: The same was taken into consideration; The purport of the said Letter being to let us know, That the Duties collected by the Court have not been sufficient to Answer the Expences, whereby they are become indebted Pags. 357. 27. 30 which Sum, they say, they have been obliged to take out of the Estates deposited in the Court; And now desire they may be reimbursed that Sum; As also that the Company may in future pay the Ordinary and Necessary Expence of the Court on their resigning the Duties hitherto appropriated for that Service. With the Letter they presented an Estimate of the Revenues and Expences for Seven years from January 1736 to December 1742. The Letter & Request from the Mayor's Court considered.

The expences amounting in that time to	Pagodas 4483	1	26 &

expended than received, though what they make the deficiency is no more than Pag'. **357.** 27. 30, and how the other difference has been made good they have not thought fit to acquaint us, But we beleive bas been from the Interest on the Money belonging to the Estates deposited: Lent out by them on Security, and their having called in that Money has occasioned this decrease in their Receipts, Since before they had sufficient to Pay their Expences. The Account of Expences as inserted in the abovementioned Estimate being in general, The Board thought it proper to send to the Court for the particulars which are now delivered by the Register and according to that Calculate amounts to Pag^{s}. 54. 19. 19, monthly for Salaries and Wages to Servants, paper for Records & other uses, and some Equipage to the Mayor. On which the Board remarked that the Charge of Collecting the Duties if taken by the Company would be defray'd by them, and of Course lessen the Courts expence so much: And by the savings of some other Articles might reduce it to about Fifty Pagodas ℔ Month which Sum we are of Opinion will be sufficient for the Service of the Court, and to maintain it in a proper decency, and we presume the Honourable Company will rather Approve of having the Sum fixed than to leave it indeterminate as the Court might hereafter enlarge the expence beyond what the present Members propose and is now offered for the Honourable Company's approbation. After some time Spent in debating on the several matters here recited, it was at length agreed that the Estimate of the receipts and payments for Seven years from January 1735, to December 1742, as delivered in by the Mayor's Court, be entered after this Consultation as also the Calculate of the Monthly Expence presented by them for the perusal of the Honourable Company, To whom we beg leave to referr the Contents of the Said Letter & Papers & to desire their directions thereon, and till such time as we are favoured with them that the Paymaster do monthly pay into the Court the Sum of Fifty Pagodas which we hope will not be disapproved of as it is in support of a Court established in their Government for the Administration of Justice. But that we cannot consent to the Payment of the Three hundred and fifty Seven Pagodas twenty Seven fanams and thirty Cash, as desired by them, and said to be due to Estates deposited, without having obtained leave from home for so doing.

Resolutions thereon.

The Revenues collected by the Court resumed to the Compy's. Use.

ORDERED that the Banksall & Weighing and Measuring Duties together with all Rents & advantages whatsoever heretofore received by the Mayor's Court by indulgence from the Honourable Company do remain from the first of this month to the Company's use and benefit & the said Revenues be under their direction till we have their Orders thereon.

Answer to the Mayor's Court.,

And that a Letter be wrote to the Mayor's Court to Signify to them the resolutions the Board had come to on the Subject of their Letter of the 9th. Instant and that the Secretary do at the same time Send them another Extract of the 61st. Paragraph of the Honourable Court of Directors Letter dated 21st. March 1739 concerning the Estates of Deceased Persons which from a Circumstance in the Mayor's Court Letter, We judge it to be incumbent on Us to remind them of.

It's proposed to Farm out these Revenues.

The manner of collecting the Banksall, Weighing and Measuring Duties being performed by Conicoplies and the Banksall at a distance from the Fort and Subject to many abuses it was proposed as likely to be most beneficial to the Company to let the same to Farm and the President was thereupon desired to enquire for some Persons to undertake it. In the meantime the Secretary is directed to to (*sic*) make an Abstract of the Produce for the Seven years ending in 1742, as stated in the Courts Estimate and that he send to the Register for the Account of last year whereby the Board may the better be able to judge of the Value and how let it to when Proposals are made.

TO THE HOÑBLE THE MAYOR'S COURT
OF MADRASSPATNAM.

GENTLEMEN

I am ordered by the President & Council to acknowledge their having receiv'd a Letter from Your Register dated the 9th. Instant referring to an Estimate Annex'd for proof that the Revenues hitherto appropriated to the defraying the Expenses of Your Court have fallen so short of that end in Seven years as to bring You in Arrear Pag^{s}. 357. 27. 30 which You have taken out of the Estates deposited in Your Court, and desiring them to defray your future Ordinary & Necessary Expences, which, by Another paper laid before them also by Your Register, they observe to be estimated at Pag^{s}. 54. 19. ℔ Month.

The president & Council having considered the purport of Your said Letter & the other papers relative thereto have Ordered me thus to Acquaint You That they have given the necessary Orders for collecting the Several Revenues by which your Expences have hitherto been defrayed on the Company's Account and that as thereby your monthly expence will be lessen'd by the Wages of the Servants depending on those Revenues & further Savings that may be made in some other Articles, they think proper to allow & have ordered fifty Pagodas to be paid you monthly to defray Your future Necessary Expences till the Company's pleasure shall be known therein, which they are of opinion with a proper Frugality will be at least Sufficient if not leave a Surplus at the Year's End to Answer any extraordinary Incidents that may have escaped Remark in Your Estimate.

As to Your Arrears of Pag^{s}. 357. 27. 30 which You tell them you have taken out of the Estates deposited in Your Court & which you desire them to reimburse, they have ordered me to Acquaint you that they do not think themselves warranted to comply with that part of your request without previous Orders from the Court of Directors to whom they will represent the Matter in their next Letter, but that they think themselves Obliged on this Occasion to remind You of what the Company were pleased to write about deposited Estates in the 61 paragraph of their Letter to this presidency dated the 21st. March 1739 a Copy of which I had the honour to transmit you the 11th. August 1740 as I now have to send You another Copy herewith, being with respect

Capt. Taylor called upon to answer a Complaint against him from the West Coast & for his Journal.

The Second paragraph of the Letter from the West Coast by the Sumatra of the 18 August, charging Captain Taylor with being the Cause of the late dispatch of the Grantham from thence to England, by unnecessary delays in his Passage thither: The Secretary is ordered to deliver him a Copy of that Parā requesting his Answer thereto the next Consultation & that he then also lay before the Board his Journal of that Voyage.

One of the Vizagapam. disabled Soldiers ordd. to England on the Heathcote &

William Mead one of the two Soldiers sent hither from Vizagapatam on the Sumatra as disabled, being represented as yet Capable of some years Service, it's agreed to send the other William Conelly, to England on the Heathcote on the terms of the Charterparty the Board judging it more for Our Honourable Masters Interest to be at that certain Expence, than to maintain an Useless Man at a monthly Charge for the uncertain Number of Years he may live.

Agreed to purchase as far as 60000 Mss. Pags. and to sell some Silver to supply our Cash.

The Gentlemen at the Northern Settlements desiring to have a Supply of Cash as early as possible, and as we are of opinion it will greatly forward the investment in those parts, and enable them to procure a larger Quantity by having the start of the French, who of late have not sent any Money till after the Arrival of their Shipping in June, the Board agreed to the procuring as far as Sixty thousand 60000, Madrass Pags. including those we have by us, for that purpose and as the payment for these Pagodas will reduce our Cash, pretty low, and there will be some Money wanted soon by our Merchants, it was judged proper to dispose of some more Silver, as at this time of the year it is generally at the highest price, & the President & Warehousekeeper were desired to enquire amongst the Shroffs, and to get the best price they can, but not to sell for less than 14 fourteen Dollar Weight for ten, 10, pagodas.

——FORT ST. GEORGE, JANUARY 1743-44——

Bad Rice & Duke Montfort & Princess Augusta to be sold.

Musters of the Rice sent us from Bengall on the Duke, Montfort and Princess Augusta being produced to the Board; What came on the two first of those Ships (on which the Gentlemen there remark in their Letter of the 5th. December last, that it was not so good as they intended) Appeared not only too bad to send to the West Coast, but so much so that the Honourable Company must Suffer a considerable loss by keeping it in our Grainary for Garrison Store. Part of the Princess Augusta's is no better; But some of what she brought being of a better sort it's agreed & ordered that the Warehousekeeper chuse out One thousand bags of the best of it for the West Coast, and that the rest be sold at Outcry.

Sheweth

That one Stephen Moses Hollard who was entertained by the Hoñble Company as an Ensign for this Garrison came out with your petitioner on the Wilmington, Captain Tedd & arrived in Bengal the 20th. Septr. 1742 where he died the 20th. February following.

——*FORT ST. GEORGE, JANUARY 1743-44*——

Your Petitioner also shews that the said Hollard being a near Relation they entered into joint Engagements with some Merchants & others in England for Wines & other things they brought out with them a joint Adventure by which means the said Hollard became indebted to your petitioner on ballance of an Account herewith offered to your Honour &c^{t}. in the Sum of Forty one Pounds Eighteen Shillings & six pence half penny.

Your Petitioner further sets forth that when the said Hollard was about to leave England the Hoñble Court of Directors being informed that he had some knowledge in the business of an Engineer & that he might be usefull abroad here in that way gave orders for providing & sending out with him such Mathematical Instruments as he thought proper ; in Obedience to those Orders such instruments were bespoke of & made by an Instrument Maker in Fleet Street & by him as Your Petitioner is Assured sent to M^{r}. Crab at the East India house from whence he verily beleives by some Accident or other they were not sent on board the Wilmington, as the Strictest Enquiry & Search were made after them when that Ship was shifted in Bengal without Effect.

Your Petitioner an (*sic*) enquiring after the Effects of the said Hollard is informed that there are five Months pay due to him from the Hoñble Company which Your Petitioner would have applied himself to this Board for some time since but that he was given to understand his request could not be granted till those Instruments were produced or Accounted for being said to have been put under the said Hollard's Charge.

Wherefore your petitioner humbly prays that if Your Honour &c^{t}. shall not think proper to order that money to be now paid him, you will do him the favour to represent his Case to the Honourable Court of Directors from whom he hopes that indulgence, in part of the ballance due to him from the said Hollard as well as that he has been directed by the Mayor's Court at Calcutta to act as his Executor.

AND YOUR PETITIONER &c^{r}.

AT A CONSULTATION

Present

SATURDAY THE 4TH.

NICHOLAS MORSE ESQR. GOVERNOUR PRESIDENT.
WILLIAM MONSON. THOMAS EYRE.
EDWARD HARRIS. WILLIAM JOHNSON.
JOHN SAVAGE. SAMUEL HARRISON

Last Consultation read & Signed.

January Cash Acct. read.

The President reads the Cash Account for last month ballance remaining, now compared with the Cash Chests Thirty nine thousand seven hundred and seventeen Current Pagodas thirty two fanams and three Cash 39717 32 3, and thirty thousand five hundred fifty five 30555 Madrass Pagodas. And

10 Chts. Silver sold at 13¾.

Acquaints the Board that he and the Import Warehousekeeper in consequence of the resolve of last Consultation had sold Ten Chests of Silver at Thirteen Dollar Weight & three Quarters, 13¾ for Ten Pagodas which is approved.

10000 Mss. Pags. bot. at 9¼ ℔ Ct.

He also acquaints the Board that an offer being made him this morning of Ten thousand 10000 Madss Pagodas at Nine and a Quarter 9¼ ℔ Cent Batta, he had ordered the Shroff who made it to wait for an Answer till the Council met who agreeing to accept it, the Man was called in, laid down that Sum and was paid Ten thousand nine hundred twenty five 10925 Current Pagodas the amount of them. The President then said that upon enquiring into the cause of the unexpected fall of the Madrass Pagodas now, when several of the Northern Grain Vessels are arrived, he was told it proceeded partly from the Merchants not having yet sold their Grain & partly from a large Quantity of Gold Fanams brought into Town within these few days from the Misore Country to be Coined in our Mint, and if his intelligence did not fail him the Batta would fall still lower by a large demand for Rupees (it was expected) some Exegencies of the Government above would shortly occasion, in which Case those who have bought up the Madrass Pagodas would probably be induced to Exchange them at a small loss in hopes of a greater Advantage from the Rupees; If this should happen to be the Case and an Opportunity offer of purchasing the remainder of what we want at or under Nine ℔ Cent he proposed to the rest of the Board to empower him to buy, lest by any sudden Turn such an opportunity might be lost before he could meet them which was readily agreed to.

The President empower'd to buy the rest of the Madrass Pagodas.

Request from Mr. Parkes to stay here for the Recovery of his health.

A Letter from Mr. Samuel Park's of this date read as entered hereafter setting forth that being in a bad state of health he desires the Board will dispence with his not returning to England on the Heathcote & permit him to stay here for the recovery of it: AGREED to comply with his Request.

Taylor's Journal deliver'd in & his Answer to the Complaint from the West Coast against him.

The Secretary pursuant to Order of last Consultation delivers in Captain Taylor's Journal of his last Voyage to the West Coast, and also a Letter from him which is now read as entered hereafter being an Answer to the Charge against him in the 2d. paragraph of the West Coast Letter to this place of the 18th. August last. The Complaint from the West Coast against Captain Taylor being founded on a Deviation made by him in his last Voyage thither, expressed in general terms, and it appearing by his Journal that he stayed only four days at Barroos, which he confesses in his

——FORT ST. GEORGE, FEBRUARY 1743-44——

paper, and which in Our opinions if the reasons he gives for it are just, does not fix such a Charge upon him: It's agreed to suspend our further Judgement on the matter till we know from the Gentlemen at Fort Marlborough whether their Complaint had any more particular Grounds and to that end to transmit them a Copy of Captain Taylor's paper.

Captains Goring and Byers pursuant to order of last Consultation deliver in their report of the Sumatra which is now read and entered hereafter, in consequence of which it's agreed to send her to Bengall to refit, and the said Captains being asked whether they thought it safe to send any Treasure on her, told the Board that though they had represented her as not fit to make a longe (*sic*) voyage, in which she might meet with bad Weather she is very Capable of any Service between this and the Bay at this season of the year.

Report of the Sumatra. She is order'd to Bengal to refit &

AGREED therefore to order her to call in at Vizagapatam to land a present Supply of Wares & Stores and Fifteen thousand 15000 Madrass Pagodas for the Use of that Settlement, and to send thither on her also Fifteen thousand 15000 Madrass Pagodas for the Use of Ingeram Residency, consigned to Vizagapatam from whence it may be forwarded as the occasions of the Investment at Ingeram require, Vizagapatam being the Securer place to lodge such a Sum at in case of troubles in the Country.

To call at Vizagapatam with Treasure & Stores.

AGREED also to send on the Sumatra to the Bay the Rupees produced by the Dutch Dollars sent Us from thence on the Montfort.

Dutch Dollars ℔ Montfort return'd to the Bay in Rupees.

The Storekeeper produces an Indent for Stores wanting for the Sumatra, which he is ordered to comply with as far as he finds it necessary.

Stores supplied the Sumatra.

The Board then took under consideration and agreed on the Lists for and directions concerning the Investment to be made at Vizagapatam and Ingeram as entered after the Letters to those places by the Sumatra.

Lists of & directions for the Investment sent to Vizagapatam & Ingeram.

The Ship William & Sarah being to sail for Vizagapatam in few days after the Sumatra, It's agreed to send thither on her a further Supply of Money for the Northern Settlements, That is Five thousand 5000 more Madrass Pagodas and two Chests of Rupees for Vizagapatam; Five thousand 5000 more Madrass Pagodas for Ingeram and Ten thousand 10000 Madras Pagodas for Maddepollam.

A further Supply of Treasure for the Northern Settlements order'd to Vizagapat^{m}. on the William & Sarah.

William Monson Import Warehousekeeper pays in Eleven thousand seven hundred and sixty Pagodas on the following Accounts Viz^{t}.

Money paid in on account of Silver & Broad Cloth.

On Account of Silver Sold	Pagod^{s}.	7760	— —
On Account of Broad Cloth delivered the Merch^{ts}...		4000	— —
		11760	— —

He also delivers in as entered hereafter the Account sale of Seven hundred Candies of lead put up Yesterday at Outcry amounting to Nine thousand three hundred eighty nine Pagodas two fanams and twenty Cash, or near thirteen Pagodas fourteen fanams and seventy Cash 13. 14. 70 ℔ Candy in an Average.

Accot. sale of 700 Candys of Lead delivered in

John Savage Rental General pays in Three hundred 300 Pagodas on Account of Quitrents.

Money paid in on acct. of Quitrents.

The President acquaints the Board that there are Advices come to the Shroffs in Town, that Nazamal Mulk, upon his Arriving at the Banks of the River Kistna in his way to Golcondah, had an Account brought him of a large Army of Morattas being on the other side; On which he faced about and came back three days Journey to a place called Pocatore. The Morattas soon after passed the River and encamped

——FORT ST. GEORGE, FEBRUARY 1743-44——

within a few Miles of him, and there has been small skirmishes between those sent out to Forage, but nothing of any consequence. That orders were sent to Coja Namah Tulla Cawn who Commands in the Province to immediately March with his Forces to the Fort of Chingee, where he is collecting a larger Body, in order to prevent the Morattas, getting through the Pass to Tritchanopoly, which they have designs to retake from the Moors. This has very much alarmed the Country, and occasioned all the Inhabitants at Arcot and the Towns adjacent to leave them. And great numbers of Peons and Oxen are come in here with Money and Effects. In a few days it was expected they would come to some Action or Treaty; But it is thought the latter, as it is more agreable to Nazam's general method of proceeding, and as the Army of the Morattas is said to be Superiour to his.

House at Upparra & Some Buildings at Ingeram permitted to be set about.

AGREED that the Gentlemen at Vizagapatam be permitted to rebuild the House at Uppara, and M^r^. Saunders to make those buildings he represents as so necessary to the security of the Company's Effects at Ingeram, not exceeding the Costs they compute them at.

Survey of the Heathcote's Men & Warlike Stores ord^d^.

ORDERED that when the Heathcote has taken in her last Bales, the Paymaster & Gunner do go on board to survey her Men & Warlike Stores and report her condition to the board.

TO THE HOÑBLE NICHOLAS ESQ^R^.

PRESIDENT AND GOVERNOUR &C^R^. COUNCIL OF FORT S^T^. GEORGE.

HOÑBLE SIR & SIRS,

In obedience to your directions, communicated to me by M^r^. Secretary Savage, I now lay before Your Honour &c^t^. a Journal of my last Voyage to Fort Marlborough, and to make reference thereto the more ready, together with a desire I have of justifying my Conduct to your Honour &c^t^. which I read with concern has been so much complain'd of by the Deputy Governour and Council there; I must beg leave to take up more of your time than I willingly would at this juncture.

I received Your Honour &^ts^. dispatches for Bencoolen the 9^th^. October 1742, but being obliged to take the Sloop in Tow, which you were pleased to require my care of, and meeting with contrary Winds it was the 26^th^. of November in the evening before I arrived off Barroos, which being much later than I had reason to expect when I sail'd hence, made me apprehensive of falling short of a sufficient quantity of Wood & Water, should I meet with as ill success in the remainder of my Passage: I therefore thought it but prudent to supply myself at that Place, and those supplies were of great service to me as I did not arrive at Moco Moco till the 29^th^. of December: The Resident there was pleased to order me to deliver the Salt I had on board which detained me till the 5^th^. Jan^ry^. when I proceeded for Fort Marlborough, with him Passenger.

Your Honour &c^t^. will please to observe my only stay was at Barroos, and that, less than four days, I indeed was very sensible the Gentlemen to whom I was consigned are at all times displeased at the Ships touching on the Coast, and in consequence of that, had it not been so very necessary, I should not have chose to have run the risque of disobliging. But I did not in the least apprehend it could be at all detrimental to my Honourable Masters, or should I even now, had not those Gentlemen been pleased to write so; For though I arrived at Marlborough the 7^th^. of January, which was but ten days after the Grantham, they did not think proper to order me to the Assistance of that Ship's dispatch 'till the 24^th^. February.

——*FORT ST. GEORGE, FEBRUARY 1743-44* ——

I have before acquainted Your Honr. &ct. of my only Stay on the Coast, and as the length of my Passage proceeded entirely from other Causes I could noways prevent; I flatter myself your Honour &ct. will be pleased to think more favourably, of my conduct than it has been represented to You, and as such recommend it to my Honourable Employers.

I am with the utmost respect,

FORT St. GEORGE

HOÑBLE SIR & SIRS
Your most Obedient & most humble Servant,
JOHN TAYLOR.

To the HOÑBLE NICHOLAS MORSE Esqr.

PRESIDENT AND GOVERNOUR &cr. COUNCIL OF FORT St. GEORGE.

HOÑBLE SIR & SIRS

Upon my Arrival at Bombay from Mocha, I obtained Governour Wake's leave to Proceed on the Success Galley bound for Bengal, in order to come round to Madrass against the time of the departure of the Europe Shipping; but by the loss of her Passage, and Unusual length of the Sumatra's from Vizagapatam, I could not Reach hither till 27th. Ult°. and now finding myself very much indisposed through a Consumptive disorder which the Fatigues of the Sea have helped to Confirm, I make it my humble Request to this Hoñble Board that you will dispense with my not returning thus suddenly on the Heathcote for England, and permit me to stay behind for the Recovery of my Health.

I am with the greatest Respect

——*FORT ST. GEORGE, FEBRUARY 1743-44*——

To the Hoñble Nicholas Morse Esq^r.

President and Governour &c^a. Council of Fort S^t. George.

Hoñble Sir & Sirs

In obedience to Your Honour &c^a's. Commands we have been on board to survey the Sumatra accompanied by the Carpenters of the Heathcote, and beg leave to offer our Opinions as follow

We find her upper Works in a very bad condition, being quite open for want of Knees and Standards to strengthen her Quarters, and imagine it will be unsafe for her to go any long Voyage where there may be a likelyhood of Bad Weather.

We also find she makes about Eight Inches Water an hour, and will doubtless make much more when she comes to lay her upper Works in the Water. The Captain informs us the most material Leak is in the Scarfe of the Stem, but as she is full there We could not come to see it.

We are,

Hoñble Sir & Sirs

Your most Obedient humble Servants

Proceedings about appointing a Superiour in the Roman Church in this town.

The President acquaints the Board that notwithstanding Father Severini since the demise of Father Thomas in April 1742, has acted as Superiour of the Roman Catholick Church in this Town by the Consent of this Board (who then thought it unnecessary to Authorize him by any particular Instrument) and has conducted himself to the general Satisfaction. He learns a paper under the Hand of the Provincial of the Convent of Tauris and the Seal of his Office called a Decree and said to be sent out of France by the way of China appeared in town about the 5[th]. instant whereby Padre Renatus (a Frenchman by birth, and a junior Brother who has hitherto acted under Severini) is appointed Apostolic Missionary and Vice Guardian of the Missions in the Indies and Persia, a Title, though not exactly the same with that Severini is known by of Superiour and Chief Pastor of the Church of S[t]. Andrew in this Town, yet the influence it carries with it will render it so like in its Effects, that he looks on it only as an Artfull Attempt to invade the Honble Company's Right of Appointing who shall be Superiour in Ecclesiastical Matters over the Great Number of our Inhabitants of the Roman Catholick profession; a Priviledge necessary to the Company's Honour and Interests and the Welfare and Good Government of the Town and as occasions offered so zealously maintained by our Predicessours, and as often approved by our Honourable Masters, that he therefore recommends to the Board to consider of the Steps proper to be taken on this Affair.

Our Records being thereupon referred to, so many preceedents appeared of the Prerogative mentioned by the English Government in Cases of this Nature, confirmed from England and confessed by the Fathers of this Roman Church that the Board having fully considered the Nature and Tendency of this matter Resolved & Ordered that an Instrument be drawn out Appointing Padre Severini, Superiour and Chief Pastor of the Church of S[t]. Andrew in this Town, on the model of that given on a like occasion by the President and Council in February 1707.

That the same be translated into Latin to be signed by the Board, and that an order also in Latin be delivered by the Secretary to Padre Severini, directing him to read or cause the said Instrument of our Induction to be read publickly in his Church on Sunday next the Secretary being present.

Agreed for several reasons that obviate themselves to seperate the grounds of these our Resolutions from our other more publick Advices to our Honourable Masters by the Heathcote now dispatching.

Capt. Cape has no private Trade to manifest or Money to pay in.

The Inhabitants of Mootal Pettah desire a Range of Buttecas may be built at the Comy's Expence. The Paymr. to make a Calculate of the Cost.

The President acquaints the Board that Application had been made to him by the Inhabitants of Mootal Pettah for a Range of Buttecas to be built at the Company's Expence at the Southernmost end thereof fronting the North Wall of the Black Town to run from the Sea Side Westward the Breadths of the Streets being left open; The Board being of opinion that besides the use they would be of to the Inhabitants living at that distance they would serve also as a Boundary to prevent any Encroachments on the Two hundred Yards space between them and the Town Wall and answer to the Company's Advantage in their Rents: ORDERED the Paymaster to lay before Us a Calculate of the Cost of Building them.

The Farmers complain the range of Buttecas without the White Town are in want of repair. The Paymr. Ordered to repair them.

The Secretary then acquainting the Board the Farmer of the Butteca rent and Shroff duty had complain'd to him that the Range of Buttecas without the Wall of the White Town for want of some repair are not in a condition to be occupied, by which he shall be a considerable sufferer; The Paymaster is ordered to repair them.

Serchary Verauga. Nella Tomby Chitty & Jenegula Tagappa offer to Farm the Banksal Duties for two years at P. 400 ℔ Annum. Their offer considered & Accepted—A Cowle ordered to be drawn out.

The President acquaints the Board that amongst the offers he had received for farming the Banksall duties as lately collected by the Mayor's Court the highest was made him this morning by three Persons, Namely, Serchary Veraugua, Nella Tomby Chitty and Jeneguda, Tagapah who offer to take the Farm for two years to be accounted from the 1st. of last month the produce collected since that time being (on their account) at four hundred 400 Pagodas ℔ Annum to be paid in by two equal half yearly payments; & the Board having no reason to expect a better offer, & the Calculate entered after Consultation of the 26th. Ultimo shewing those Revenues to have produced considerably short of that sum at the highest Medium for Eight years past; It being also considered that though this sum will not fully reimburse the Honble Company the Annual Amount of their Fifty Pagodas ℔ Month to the Mayor's Court, yet with the Rent of the Godowns added to it, it will reduce that charge to between thirteen and fourteen Pagodas ℔ Mo. or about One hundred and sixty ℔ Annum; It's agreed to accept the said Offer and Ordered that a Cowle be drawn out accordingly against next Consultation.

Rice Freighted on Two Boats to Fort St. David.

There being in the Road two Country Boats bound to the Southward, its Agreed to Freight on them a Supply of Rice to Fort St. David.

Mr. Hallyburton discoursed about the means of securing the Compys Effects at Maddepolla m in case of danger from the Morattas. An Offer made him of a vessel for that service for P. 20 ℔ Mo. Agreed that he hire her & Mr. Saunders at Ingeram directed to follow the same Method.

Mr. Hallyburton being sent for and discoursed about the means of Securing the Company's Effects at Maddepollam should they be in danger from the Morattas, who by report are infesting Metchlepatam & the Parts adjacent, told the Board he had talked with Meer Angee Master of the Cauderbux a Brigantine now in the Road belonging and shortly bound to the Northward, about the hire of his Vessel for such a service, who offered to keep her in Maddepollam River in readiness to take on board and convey him and the Company's Effects to Vizagapatam or whether he thought proper for a consideration of Twenty Pagodas a Month during such service, which Terms the Board thinking very reasonable agreed to accept & also to send Mr. Saunders directions to follow the same Method if he can, and occasion should require it at Ingeram.

Proceedings relating to the Investment for this year.

The early Season being always found most Advantageous for the Investment and therefore to lose no time it was taken into consideration & debated in what manner to carry it on this Year; Whether to employ only those Merchants we have had for some time past, or to endeavour to engage others in the business upon which it was

——FORT ST. GEORGE, FEBRUARY 1743-44——

observed that two of them, Namely Ponnappa Chitty & Molinga Kistna had suffered so greatly in their Fortunes that we can have but little expectation whilst they are under these disadvantages to have any Quantity of Cloth from them, and though that is not the Case with Telesinga Chitty and Nellamutta Comrapa Chitty, yet their performances have been inconsiderable perhaps occasioned in some Measure by a fear of suffering by Advances to the Weavers; That from the troubles and dearness of Cotton in Bengall the Investment there is fallen very short in somuch that two Ships have been detained in India besides the Winchester that we may hope to hear of soon, And that there is a rumour of the Morattas being gone again to Bengall, which if true must yet further distress that Investment, from all which it appears highly necessary to increase ours as much as in our power, and to take to our Assistance such persons as may enable us to go through with it.

The President acquaints the Board of his having discoursed with some of the Merchants upon this ubject &

The President thereupon acquainted the Board that he had for some days past talked with several Merchants in order to find out if any were willing to serve the Company in this way that should the Board judge it proper to have others in the business he might be able to inform them, But that he could not discover any inclination from the Discourse he had with them, that they had urged to him the many instances of Persons in this Settlement who had suffered greatly by this branch of business, That the country yet continued in a very Unsettled State, and subject to frequent disorders besides the daily increasing Power of the Morattas, who ravage and plunder in the Empire without Coutroul. That in these times property is very insecure and Advances to the Weavers must be attended with great hazard, those People when obliged to leave their habitations often times fixing their Residence at the Place that affords them protection, to which they added as an inconveniency attending this business that it would take up their whole time and oblige them to lay aside what they are engaged in without any prospect of advantaging themselves by leaving the one to undertake the other which of late Years has been far from rendering any benefit to the concerned, that when the Present circumstances of Affairs altered, and there was any probability of Meeting with Sucess they should be very ready to serve the Company; Amongst others Sunca Vencata Ramah (the son of Sunca Ramah) Ambaltaudy, Gungaveddy Vencata Rama and Nella Chitty four Persons known to the Board and generally reputed Men of Substance, assured him they only waited for such a favourable juncture to make such offers to the Board as they might hope would be accepted.

Amongst others, Sunca Venkata Ramah, Ambaltauddy Gundavedy Vencata Rama, and Nella Chitty.

The Board were but too sensible of the truth of what the Merchants had alledged to the President and observed with concern how little it was in our power to offer a New set any terms that would be esteemed a sufficient Encouragement for them to engage with us, That to raise the Prices of the Cloth at this time besides, that we think it will not be agreeable to Our Honourable Masters, might be of bad consequence, as it is Seldom if ever found practicable to reduce them again, That the Broad Cloth which yields a profit some years, is now appropriated to Tomby Chitty, Ponnapa Chitty and Molinga Kistna to support them and ease their ballances and therefore we are greatly at a loss to know how to make such proposals to them as they will care to accept and yet the importance of the case will not permit us to be indifferent or to slacken our Endeavours for the accomplishing it. It was thereupon moved to send for those persons to see if we could prevail with them who accordingly came and were asked if they would take a part of the Company's Investment and on what terms, repeated what they had said to the President and desired the Board to be persuaded that they should not have any reluctance to undertake the part of the Investment for this year that might be allotted them, could they even be certain their fortunes would not be injured, that if we proposed the Method lately made use of, Brokerage, it would barely pay the necessary Servants and other Expences, that a proportion of the Broad Cloth would give them but a small advantage, and that therefore they expected some allowance to be made them equal to the trouble and attendance required, and the risque they must run in the Advancements. They were then told it was not in our

who

Who, being called in, were asked if they would take a part of the Investment.

— *FORT ST. GEORGE, FEBRUARY 1743-44* —

power at present to offer them more than the Brokerage, that it was true the Merchants had for a long course of time had the Broad Cloth allowed them; but that was already engaged and that as to the other it could not be granted without liberty first obtained from Home. That the Brokerage only was we must confess less advantageous terms than what the other Merchants had, that nevertheless if they would accept of it and shew a readiness to serve Us at this time, we would recommend them to the Company, to whom we did not doubt, such a behaviour would be very satisfactory, and that they should not fail of having all the Assistance we could possibly give them for the carrying on their business. These Merchants having desired to withdraw to consider of what the Board had said, after sometime came in and delivered themselves to the following purport.

That it had formerly been esteemed an Honour to be the Company's Merchants and that many had heretofore reaped advantages from the credit of it, however unhappy some had been of late: That to these the greatest Indulgence had been shewn even beyond the highest expectations, that the generosity and benevolence of the Company had made great Impressions on the Minds of the Inhabitants in general and that therefore they had the utmost confidence in the Company and were well satisfied that they should have all fair and kind treatment from the Gentlemen who now sit at the Board and being willing to shew their regard to the Company, and our promise of recommending them as well as to oblige us they would take parts of the Investment for this year and endeavour to Answer the expectations we might have of their contributing to the enlarging it as far as may be but that they could not hold themselves bound to continue in the business on such unequal terms.

They undertake a part of this Investmt. for this year.

Having obtained this Point the Board proceeded to divide the different sorts of the Cloth amongst them so that they might interfere with one another as little as possible, the consequence of which is either the raising the price or taking Cloth of an inferiour Goodness, and it was at length agreed between the Board and the following Merchants.

The different sorts of cloth divided amongst them.

THAT, Telesinga Chitty and Nella Moota Comrapa Chitty should have the provision of the Middling Long Cloth.

Sunca Vencata Rama and Ambaltaudy of the Ordinary Long Cloth.

Gungaveddy Vencata Rama and Nella Chitty, of the Middling and Ordinary Salampores.

Teremungalum Comrapa to provide the Fine Goods, conformable to a List now agreed on with him, as entered hereafter, And

The St. David Merchants showing a backwardness to engage deep in the Salem Investment. Agreed To write the Gentlemen there if a small matter more Brokerage will induce them to do more business we shall not be backward to consider them.

The Letter last received from St. David's being again read & its purport considered there appeared to the Board a backwardness in the Merchants to engage deep in the Salem Investment proceeding from the great distance of that place, its being under the Misore Government & the greater risque thereby in the Advances to the Weavers: And it being debated by what means to excite in the Merchants a greater willingness to enlarge the Investment in the Cloth of those parts, which Our Honourable Masters seem so desirous of: The most likely Expedient that Offered was some further Addition to the Brokerage, and it was thereupon agreed to intimate to the Gentlemen at St. David's that if they find their Merchants could thereby be induced to do more business at Salem, we shall not be backward to consider them in the Brokerage.

Coja Namah Tulla Cawn sends the President a Horse & Seerpaw Agreed to defer making a return for some time.

The President acquaints the Board that Coja Namah Tullah Cawn who Commands in the Province in the place of his Father Coja Abdullah Cawn the present Nominal Nabob of Arcot had sent him a Horse and Seerpaw on his coming to the Governmt. and that he found it was expected there should be a present made in return as is customary to a Nabob of on such occasions. But that as Nazam was returned into the Province and that 'tis rumoured the Subahship of Arcot will soon be settled, he judged it might be proper to wait some time that we might avoid the extraordinary charge of sending another present in case it should not be confirmed on the same Person which was agreed to.

——FORT ST. GEORGE, MARCH 1743-44——

Henry De Veil Attending acquaints the Board that in November 1741 he borrowed the sum of Fifty Pagodas at Interest of One Armagon a Conicoply who fled from Justice on Account of a Charge of Forgery exhibited against him by the Grand Jury as mentioned in Con: of the 11th. June 1742, that his Note for the same now Appears in the Hands of one Chintomby who has called upon him to pay it, but as he looks upon that Money to be the property of Armagon, whose Effects were ordered by the Justices to be confiscated to the Honble Compy's Use, He thinks himself obliged to tender the same to this Board, to whom if it shall appear to belong to Armagon, he hopes they will please to Order his note to be delivered up to him. AGREED to receive the amount of the said Note into Cash & that Mr. De Veil be held discharged therefrom.

Henry De Veil acquaints the Board of his being indebted to Armagon a Conicoply who fled from Justice on Acct. of a charge of Forgery exhibited against him. Agreed to receive the same & that Mr. De Veil be held discharged from the Debt.

AT A CONSULTATION

Present

THURSDAY THE 8TH.

NICHOLAS MORSE ESQ[R]. GOVERNOUR PRESIDENT.
WILLIAM MONSON. THOMAS EYRE.
EDWARD HARRIS. WILLIAM JOHNSON.
JOHN SAVAGE. SAMUEL HARRISON.

Last Consultation read and Signed.

Impt. W. H. Kr. pay Money into Cash, Account of Silver sold

William Monson Import Warehousekeeper pays in Eight thousand three hundred 8300 Pagodas on Account of Silver sold.

——*FORT ST. GEORGE, MARCH 1743-44*——

The Export Warehousekeeper delivers in as entered hereafter the Account Sale of 1280 Bags of the Honourable Company's Rice received from Bengall that were not fit to keep, sold at Publick Outcry pursuant to a Resolution of the Board of the 30th. January producing in the Whole Eight hundred seventy six Pagodas eighteen fanams 876. 18, or in an Average forty three Pagodas twenty Nine fanams and forty eight Cash 43. 29. 48 ℔ Garce.

Account Sale of Rice that was not fit to keep delivered in.

The Estimate received from Vizagapatam of the Repairs wanting to the Fortifications there being formed in so loose a Manner that the Board cannot well judge from it of their Necessity or Use; It's agreed to deliver it to Mr. Stratton who has been lately there, and to desire his Opinion in Writing of what is really necessary to be done.

Estimate of Repairs wanting at Vizagapatm. delivered Mr. Stratton for his opinion of what is really necessary.

AGREED to send to St. Davids on the Phar Narsinga a part of the Stores indented for from thence.

Stores ordered to Fort St. David.

The President acquaints the Board that on Sunday last he received a Letter from Mr. Daniel Berriman at St. Thomas's Mount, complaining of his having been insulted there by one Dialdoss a Guzarat Shroff, and an Inhabitant of this place, who had endeavoured by the Assistance of the Moor Hovildar of St. Thomé, to take him by force and carry him thither, which being also confirmed to him from other hands he had sent out a party of Peons to prevent it, who bringing Dialdoss in with them he had ordered him into the Custody of the Peddanaigue, and had desired this meeting in compliance with a Standing Order to Acquaint the Board therewith & the following Circumstances of the Affair. Mr. Berriman having borrowed One thousand Rupees of this Dialdoss & the time for payment being elapsed, He, Dialdoss, had often demanded his Money and been put off by Mr. Berriman with promises of discharging it. Mr. Berriman going to the Mount, the other followed him thither, insisted on immediate payment and would not be satisfied with Mr. Berriman's Assurances that he would return to Town in two or three days and endeavour to pay him his due. But on the contrary Applied to the Hovildar of St. Thomé for his Assistance to oblige Mr. Berriman to an immediate payment or to carry him to St. Thomé promising the Hovildar Two hundred & fifty Rupees or a Quarter part of the principal debt for his pains, thereupon the Hovildar sent a party of Peons who had laid hold of Mr. Berriman but on his drawing his sword they quitted him and gave him an opportunity of getting into Mr. Barlow's Garden and thence into his House where he remained, and Advised the President from thence of the Circumstances he was in. All that Night the Moors Peons continued about Mr. Barlow's Doors and were very Noisy and Insolent, but the next morning some of the English Gentlemen who happened to be there having represented to Dialdoss the Irregularity and ill consequences of such a proceeding the Moors Peons retired before the Party sent from hence reached the Mount, which last meeting with Dialdoss brought him into Town with them.

The President acquaints the Board of Mr. Berriman's being insulted at the Mount by one Dialdoss a Guzarat Shroff.

Who had applied to the Hovildar of St. Thome for a party of Peons.

This behaviour of Dialdoss carrying in it a high Insult on the English Government and an absolute breach of the Honourable Company's Orders and the long Established Rules of the place, which prohibit any application being made by any of our Inhabitants to the Moors or Gentue Officers even in disputes with or demands on each other, much less where the English are concerned, and nothing offering in vindication of him or in extinuation of his Offence since he had neither Applied to the President or Court in the matter but had taken upon him to pursue his own Measures so inconsistant with good order and by no Means to be suffered in a Government to whose Tribunal alone it's Inhabitants as well Europeans as others are subject in all cases. It's judged highly expedient to make him suffer some mark of our Resentment either by Fine or Corporal Punishment. The first of these means being preferred and it being debated what the Amount of the Fine should be. It was considered that Dialdoss is but in the lower Class of the Shroffs, and that probably Mr. Berriman's

The behaviour of Dialdoss considered.

—*FORT ST. GEORGE, MARCH 1743-44*—

He is fined 300 Pagodas & to continue in confinement till it be paid.

Debt to him will not be paid soon if ever, and therefore AGREED and RESOLVED that he be fined only Three hundred 300 Pagodas, and that he continue under his present Confinement 'till he pay the same.

The Board consider how to resent the conduct of the Hovildar of St. Thome. He sends one Mahomud Hussain, to ask the Presidt's. pardon. Agreed to excuse his behaviour at this time but, that the President let him know we shall not fail to resent anything of the kind in future

The Board were then proceeding to consider in what Manner to shew the Hovildar of St. Thomé our Resentment of his Conduct: When there came into the Fort one Mahomud Hussain a Principal Inhabitant of St. Thomé whom the Hovildar had sent to ask the President's Pardon for what had been done, and by whom he urged in his Excuse That he was a stranger to Affairs with the English, being come lately from a distant Country to this appointment and that being made sensible of the Error he had been guilty of, in concerning himself with our Inhabitants he should take care not to do the like in future. Tbe President having acquainted Us with this Message and the Hovildar being a Relation of Nabob Cojah Abdulla Cawn, it was agreed to rest satisfied with this his submission but the President to let him know, That if he or any other Hovildar of St. Thomé shall hereafter presume to concern himself in any matters respecting this Government we are determined to take our full satisfaction and that he or they will be answerable for all the Consequences that may ensue thereon.

A Paper from M^r^. M^r^. Stratton delivers in his remarks on the Fortifications & Buildings at Vizagapatam. Copy thereof ordered to be sent to Vizagapatam.

—*FORT ST. GEORGE, MARCH 1743-44*—

The Gentlemen at Vizagapatam again directed to set Mr. Pitt's case in a clearer light to us.

The President and Council of Fort William wrote on this subject.

The Detail received with the last Vizagtm. Letter of the Personal Ill treatment Mr. Pitt suffered at Uppara not Answering what was proposed by the Letter from hence of the 1st. of July last, it is agreed again to direct the Gentlemen there to Explain to Us more fully the Grounds upon which the Application was first made to the Country Government for liberty to secure the Wreck of the Ship Jaggernaut Persaund, for though it appears to us that the pretence for it on our parts was, That the Ship belonged to the English, yet that is denied on the part of the Nabob, and not made quite clear by the Copies of some Letters from Balasore now produced to the Board in support thereof as entered hereafter, it is therefore agreed yet to suspend our Instances with the Governing Powers for redress' till the Affair is set in a clearer view and in the interim to send Copies of the abovementioned Balasore Letters to the President and Council of Fort William requesting that they will order to be collected and sent Us such Vouchers as may be procured at Balasore & Calcutta of the Amount and Nature of the English concerns on board that Ship. It is likewise thought necessary & agreed to order the Gentlemen at Vizagapatam to send Us an Account of the particulars saved to what Amount & how they or their produce have been disposed of, And also if Mr. Pitt or any others under their Influence are yet possessed of any of the Money or other Salvage of that Wreck, to direct that they secure the same on the Compỹ's Account till the Matter can be settled or they receive our further Orders therein.

Account of the particulars that were saved, ordered to be sent us from Vizagapatam.

Wares & Stores Ordered to Ingeram.

AGREED to send a Supply of Wares and Stores to Ingeram on the Vencataisha a Country Brigantine shortly bound thither.

The Rupees in the Wareho. of the Weight complain'd of from Bengall ordered to be sold.

There being in the Warehouse about Eighty thousand of the Rupees which were complained of from Bengall as under Weight, it's agreed and the President and Warehousekeeper are desired to dispose of them in the best manner they can to supply our Cash, as the arrival of the expected Manilha Ship will probably lower the Price of Rupees.

TO THE HOÑBLE NICHOLAS MORSE ESQR.

PRESIDENT AND GOVERNOUR &CT. COUNCIL OF FORT ST. GEORGE.

HOÑBLE SIR & SIRS

I have perused the Estimate you was pleased to Deliver me relating to the Charges of Building and Repairing Sundry Fortifications belonging to Our Honourable Masters at Vizagapatam, and Pursuant to your Request now Tender You my Opinion Thereon.

The Houses which are situated between the Fort and the Sea Side I think ought to be pulled down for the following Reasons.

FIRST. Because whenever the Nabob has an Inclination to pay his Devotion to Madina Sahib who lies Buried upon the Muskeet Hill, he is Obliged to pass betwixt the Fort & the abovementioned Houses, and the Passage is so very Narrow That the Garrison of the Fort who are Obliged to draw out on such an Occasion are liable to be easily Surprized.

SECONDLY. The Spott of Ground those Houses stand on is the Properest place for the Raising a Battery to protect our Shipping in the Road in Case of a Warr

——*FORT ST. GEORGE, MARCH 1743-44*——

with any of the European Powers, a Plan of which will be highly necessary to be sent from hence, as there is no Person there Well Acquainted with things of that Nature, and the Cost of it I apprehend cannot be very Considerable as the Stones it may be Erected with Lie so near at hand as on the Muskeeta Hill and the Dolphins Nose, and 40 Lascars @ 2 Rup^{s}. ℔ Mensum each will be a Sufficient Number to be Employed in bringing them thither, either by Cattamarans or Land Carriages besides the Service they will Yield between while in Raising the Work.

It is also my Opinion that a Battery is very Necessary to be Erected at the Black Rock to project into the River, as the Gunns from thence will be of great Use in securing that Part of the Mangoe Garden which lies behind a Riseing Ground called the Sand Hill which Over looks the Town and what the Country Government constantly Possess themselves of upon the least Dispute with Us and the only Place from whence they can do any Mischief to the Garrison The Stones for the Building this Battery lie within twenty Yards of the Place, so that the Charges will Amount but to a Trifle, It is my belief 500 Rupees will be the Utmost, besides the Advantage there will arise from Deepening that part of the River by filling up the Body of the Battery with the sand You take out of it.

The Magazine is in a very improper Place because it is Situated so Close to the River & at so great a Distance from the Fort, That it may be easily Surprized and taken possession of by persons Crossing it in the Night time and before any relief could be sent from the Garrison; This Magazine therefore, That it may not be rendered wholly Useless, may very easily be made into a Guard House with breaking out another Door to the Westward, two Windows to the Southward and a Virando before it And as a New One will be absolutely necessary. I think M^{r}. Tornery the Properest Person to be consulted as to the place where it ought to be Built.

A Brick Parapet is wanting to Benyon's Battery as well as round Middle point to Flag Staff Hill but what Number of Bricks will be Sufficient for that purpose I am really at [a] loss to inform Your Honour &c^{t}. so cannot Judge of the Cost.

There is not at present so much as One Godown w[here] any of the Hoñible Company's Stores can be laid up with any security.

It's true there are the Walls of an Old Godown standing near the River side the roof of which has been fallen in for some years past. To the best of my Memory It is about 120 feet in Length & 24 in Breadth; If your Honour &c^{a}. shall think it Necessary to have it Tarrassed, it may be done at a small Expence with the Timbers lying at Ingeram, as they may be brought from thence on Paddy boats on easy Terms and if they should prove too short for the purpose, the Inconvenience may be Easily Remedied by raising a few Pillars all along the Middle of it. The Upper Terrass of the Fort House, being not of a sufficient Thickness, is very subject to Leak in the Rainy Season, which may be Remedied if your Honour &c^{t}. think proper by Beating off the Chinam and adding another Row of Terrass Bricks which will fully secure it in Future The Guard House is much in the same Condition and will therefore require the same Repair, About 2 Years ago The Terrass of the Armoury fell in, which, as it is a place very much wanted, I don't doubt you will think Deserves an equall Repair with the Rest. And lastly I must likewise Observe to your Honour &c^{t}. That the Timbers lying at Ingeram will be more than sufficient both for the Beams and plank that may be wanted for the above mention'd or any other Repairs which may be thought Necessary for the Service of the Garrison.

Thus having given your Honour &c^{t}. my Sentiments of what I think is Absolutely Necessary both for the Security as well as Defence of Our Honourable Masters Garrison & Effects at Vizagapatam I am to beg leave to Referr the whole to your Consideration and Remain with Respect

Letter from Nazam He sends sundry Goods to be forwarded to Surat for the Moguls Court. Letters on this Occasion from Coja Abdullah Cawn & Imaum Saib.

The President acquaints the Board that he had received a Letter from Nazam al Mulck in which he mentions to have sent to this place under Charge of two of his Officers, Several parcels of Goods, desiring him to receive the same and forward them to Surat, being designed for the Moguls Court, with this Letter came also one from Coja Abdullah Cawn, and another from Imaum Saib to the like purport all which are read and entered hereafter.

The same being considered It's agreed to avoid the taking the Goods into our Custody.

The Board having taken the same into Consideration are of opinion that we ought by all means to avoid the taking the Goods into our Custody in order to send them on to Surat, Since if any accident should happen to them in the Passage and the Court be disappointed of them they who are not conversant with Sea Affairs, & the Casualties of those Conveyances, might look upon the Hoñble Company as obliged to make good the loss which might be rated at their pleasure and occasion a large demand, & thereby involve this or some other of the Company's Settlements in Disputes with the Mogul's Officers, who would be under the absolute orders of their Sovereign and obliged to the Execution of them: though of a nature how unjust soever.

——FORT ST. GEORGE, MARCH 1744——

That as this great Person is yet in the Province and every Officer in it subordinate to him & acting by his Orders, it is our business to endeavour to keep fair with him, more especially as we have some favours to expect from him: That therefore it may be proper for us to shew a seeming willingness to comply with his request, but that we endeavour to shun every Circumstance that may have a tendency to draw any ill Consequences from that Compliance, and which we presume may be done by representing to him the risque of all Conveyances by Sea and to concern ourselves no further than in giving his Servants any Assistance when an opportunity offers to the Port of Surat & by leaving the whole management to them in the conducting them thither, that the Goods be continued under Charge of Imaum Sahib's People to whom the Officers had orders to deliver them, and who were afterwards to procure the President's Receipt, which we can by no means think it consistant with our Duty to the Company to take upon us the Risque of.

A Letter to that purpose to Nazam is agreed on.

AGREED that a Letter be wrote to Nizam al Muluck to the foregoing purpose and that it be entered hereafter.

What can I say more?

FROM THE LADY OF NABOB SUBDER ALLY CAWN DEC^{D}. in Vandavashy, REC^{D}. 23^{D}. MARCH 1743/4.

I now send your Honour a present of a Seerpaw consisting of five Cloaths, and take leave to Congratulate you upon your Succession to the Government of Chinapatnam, wishing you Joy and Success and desire you would accept of them. I have no room to doubt but you will preserve, Maintain and Keep up the same Friendship & Familliarity with Us as M^{R}. Benyon, and pray do me the pleasure of hearing your Welfare frequently.

What can I say more?

FROM IMAUM SAHIB, alias, GULAM IMAUM HUSSAIN CAWN in the Camp received the 23^{D}. MARCH 1743/4.

I had the pleasure to receive your kind and friendly Letter, acquainting me with the most satisfactory News of your succeeding to the Government of Chinapatam which I am not a little rejoiced at. I have now procured for you a Seerpaw from the Nabob, and heartily Congratulate & wish you much Joy & Success in Your Government. My son, Gulam Hussain Cawn who is with you in Chinapatam

—FORT ST. GEORGE, MARCH 1744—

has wrote me much of your fame & goodness, and as he is Your Naphew I need not recommend him to you any further than to leave him intirely under your Care. Pray be always so kind as to let me hear of your Welfare. What can I say more ?

P.S.—The Nabob has been pleased to send some Goods which are designed for the Great Mogull, along with Hodjee Noor Beag, and Shaike Abdul Nabey, by whom he sends Yo^r^. Hon^r^. his gracious Letter desiring You to forward them to Surat by the first opportunity of some Ship going thither ; And I desire you will Comply therewith and get a Receipt from Surat for them. Pray do this as soon as possible that the foregoing People may acknowledge your Services and goodness before his Excellency. You may thereby gain Interest in the Court.

What can I say more ?

To Nabob Nizam al Muluck Ausiff Jawh, 30^th^. March 1744.

I have had the Honour to receive yo^r^. Excellency's most gracious Perawana with a Present of a Seerpaw : This I esteem a Singular mark of your favour, which to me is the greatest hapiness I can meet with in this World. I humbly return my most sincere and unfeigned thanks to Your Excellency for the same, and offer my Prayers to God to grant your Excellency a Continual State of health & prosperity, prolong your Life and increase your Riches to the great Satisfaction of the whole Empire.

As to what your Excellency has been pleased to Command me to Send away the Goods belonging to the Surcar by Sea to Surat : I shall take great Care to Assit (*sic*) Your People when Ships go thither, 'till which time I beg your Excellency will please to Order and Appoint some Person to take care of the Goods and that He may also be Answerable afterwards for the Number, Measure or Weight of the Said Goods and that he may likewise be accountable for any risque that may accidentally happen to them. I have fully wrote to Gulam Hussain Cawn about this Affair who will Communicate it to you.

May your Excellency be always Victorious over Your Enemies.

To Gulam Imaum Hussain Cawn, or Imaum Sahib, 30^th^. March 1744.

Yesterday I had the great Satisfaction to receive your kind Letter with a present of a Horse and Seerpaw and am very much to thank you for your kind Congratulation, on my Succeeding to this Government, as I am obliged also to your Son for the favourable Mention of me, he is well, and will always be entituled to all the cevility and kindness I can possible shew him.

I have received his Excellency's Letter and Present by Hodjee Noorbeg, and Shaike Abdul Nabey, in which he has done me great honour, and I have now made my acknowledgments to him for them ; I have acquainted him that the Cloth he designed for Surat to be forwarded from thence to the Moguls Court is under the Care of your Servants and that I should give them my best assistance in sending it thither, but I must represent to you the risque that always attends the transporting of Goods by Sea from many accidents of Storms Fire Enemies and such like, besides damage, and as I Suppose his Excellency may have advised the Court of their being Sent to Chinnapatam to be forwarded in Case any Accident should happen there might be a demand made & might involve us in some trouble with the Court if the Goods are not produced, which cannot be provided any Accident should happen, nor can I say if any Ship will go for Surat from hence directly this year : Wherefore I beg leave to desire you will take it into Consideration, and endeavour to find out some Method that the Goods may be sent under the Care of some of his Excellency's Servants and that I may have nothing further to do than to assist them when a Conveyance offers and that no Blame may fall upon me on any Account, should any unforeseen Accident happen. You are not unsensible the Europeans chuse to avoid as much as possible the having to do with any Affairs in which the Court are concerned for fear of incurring some displeasure though they are always glad of any Opportunity of obliging them in every thing in their Power.

What can I say more.

——*FORT ST. GEORGE, APRIL 1744*——

The President acquaints the Board that agreable to the Advices from the Country he communicated to Us the 5th. instant he is since informed that Nizam al Mulck being returned to a place in the province called Gundecotah about Eight days journey distant from Arcot has fixed the Appointments to the several Nabobships of Cundanore, Golcondah, Corrapah & Arcot, the last of which he had bestowed on Coja Abdulla Cawn, but he dying the Night he received his Commission, Nizam had conferr'd it on Anawerdee Cawn, another of his Officers and late Nabob of Chickacul, a person generally well esteemed and said to be very agreable to the people, that Mauvasi Cawn, Son of this Gentleman, is Nominated for Duan and some are of opinion Imaum saib will be made Buxee. That these persons are expected at Arcot in few days & that Nizam was preparing to set out for Golcondah.

Nazam fixes the appointmt. to the several Nabobships of Cundanore Golcondah, Corrapah & Arcot, which last was given to Coja Abdulla Cawn, but he dying the same night, Annawordee Cawn was Appointed.

Mauvasi Cawn, appointed Duan & some people are of opinion Imam Saib will be Buxee.

Nazam going to Golcondah.

Hereupon the President proceeded to remark that though Nizam had express'd to the Gentlemen when at the Camp a willingness to favour the Company and Seemed then very well disposed to grant them some mark of it, yet we have hitherto received no satisfactory Answer concerning a Dustuck to pass the Company's Goods custom free or the other matters we were in hopes of, which he believed must be owing either to the insufficiency of Imaum Saib's Interest with Nizam or to his want of Attachment to our Service, as also that our Affairs have suffered thereby; He therefore proposes as the only means Nazam's intended short stay in these parts, has now left us, and the most likely to put an end to our suspence, to Address himself to Nazam on the occasion by a Letter as copied hereafter which being read the Board unanimously agreed to the proposal, being in hopes that Nazam will not fail of showing some regard to the President's Letter, or should it not at present meet with the desired Success that it may at least Serve a further purpose by opening a Correspondence with Nizam which may enable us hereafter to make our Applications to him to more advantage.

Nazam having expressed a willingness to grant the Company some mark of his favour. But as we have not yet received any satisfactory Answers concerning some matters we were in hopes of & Nazams stay being now but short. It's agreed as the most likely means left us

That the Presidt. address himself to Nazam on the Occasion—As should it not have immediately the desired effect, yet it may serve a further purpose by opening a correspondence with him.

Your Excellency's Appearance in these parts the English look'd upon as the most favourable Circumstance that could possibly happen to them: That thereby they might have the great honour of paying their Respects to you, and that you might be informed of the Assistance they have of late years given on many occasions to the Subjects of his Majesty when the Commotions in the Country render'd their Lives as well as Fortunes very unsafe without the Walls of Chinnapatam: They persuaded themselves that these Services would be acceptable to your Excellency, & that they

——FORT ST. GEORGE, APRIL 1744——

would entitle them to your Favour & Regard : This they had the great pleasure to find by the Reception and kind Treatment the Gentlemen met with when they had the honour of being in your presence at Tritchanopoly.

By the blessing of God the Affairs of this province are now settled and your Excellency as I am informed on your departure from us, before which I beg leave to hope Your Excellency will grant us some mark of your favour as shall be agreable to your great Wisdom & Generosity. This will shew the World your kind Acceptation of our Services to the Circar, and is what I have waited for with the most earnest desire, and which I should not have doubted to have been honoured with before now had the English been so fortunate as to have had an Advocate to put your Excellency in mind of us when matters of greater consequence would have Admitted it. Since I have fail'd in that point, I humbly presume to ask it myself of Your Excellency, whose Goodness I shall entirely now rely on without any Intercessor. This will be an Addition to my happiness as it will give me an opportunity of making this particular Address to so great a personage as Your Excellency, of whom I beg a fovourable Ear to what I am now about to represent : That the English Company provide Goods in several parts of this Country which is well known to be a very great Advantage to the Circar, as well as the Inhabitants, and that these are brought at different times to Chinnapatam and other places ; The Zemedars of the Country frequently stop them and make unreasonable demands from us on this Account ; Though we have His Majesty's Royal Firmān for passing our Goods Custom Free : To which a great regard is always paid in Bengal, yet the Fousdars in this Province have not shewn the same, but have always Acted in Opposition to the Royal Order. I therefore humbly entreat your Excellency would be so gracious to grant a Dustock, that by Virtue thereof the English Company's Goods may be always freed from paying any Custom : This will strengthen and support us in asserting our Right to the Enjoyment of what his Majesty has so graciously favour'd us with : And I beg Your Excellency would be pleased to send down your Perwanna to the Governour of this Province to the following: " That in consideration of this Royal Firmaund and the " Service done to the Circar by the Governour of Chinnapatam, I have freed the " English Company from paying any Custom on their Goods which they purchase in " several parts of the Country and carry to Chinnapatam and other Settlements."

May it Please Your Excellency, the Intent of my mentioning the Service to the Circar, is, that the Copy of the Sunnod which you in Your Goodness may favour me with will be Sent to England to be lay'd before Our Honourable Masters, who will be pleased with my behaviour in that Respect, and it will recommend me to them.

I further entreat Your Excellency would be pleased to order one of the Great Persons who is honour'd with a Seat in Your Noble presence to receive my Addresses and offer them to Your Excellency, as the Cossaids can have no Admittance there..

God preserve Your Excellency many Years in the highest Felicity.

NICHOLAS MORSE ESQR. GOVERNR. PRESIDENT.
WILLIAM MONSON. THOMAS EYRE.
EDWARD HARRIS. WILLIAM JOHNSON.
JOHN SAVAGE. SAMUEL HARRISON.

Packet from England ℔ Prince of Wales opened.

The Packet from England by the Prince of Wales opened, and compared with it's List, the freshest General Letter it contain'd of the 23d. November being a Copy of that received by the Prince William.

An order signed to Captain Pelly to send on shore his Military &ca.

An order to Captain Pelly Signed to deliver as they shall be sent for the Military, Treasure, Wares and Stores he has on board for this Presidency.

Messrs. Monson & Johnson report the Treasure ℔ Lapwing & P. William to come out right. And are directed to examine that by the Prince of Wales

Messrs. Monson and Johnson report the Treasure by the Lapwing and Prince William to weigh agreable to Invoice, and are directed to examine that by the Prince of Wales also when it comes ashore in the presence of the Captain.

——FORT ST. GEORGE, APRIL 1744——

Our not having as yet received from the Gentlemen in Bengall the directions they promised us in their Letter of the 29th. February last with respect to the proportions of the Treasure to be sent them, introducing a debate whether we should coin the Treasure by the Prince William and Lapwing or send these first Supplies in Bullion it was considered that though in the more Settled times the Gentlemen in the Bay commonly desired their first Supplies uncoined, the Muxidavad Mint being shut up on the Morattas entering that Country had occasioned them to alter that request and desire us to send them no Bullion, and as our repeated advices from the Northward leave little room to doubt of the Morattas being again gone to Bengall and that in such case the Mint of Muxidavad being shut up will render Bullion of little Service in the Investment; It's agreed 'till we receive more certain directions from the Bay to be guided by those Sent us from thence under the 31st. July and 30th August 1742, in Coining all the Treasure we have to send them in the interim into Arcot and Madrass Rupees.

The Gentlemen in the Bay not having directed in what proportions they would have their Silver Sent them Its agreed to follow those directions received from them last year, by coining what treasure we send them 'till we hear from them on this Subject.

ORDERED therefore that all the Treasure by the Lapwing, Prince William and Prince of Wales be delivered into the Mint to be Coined for the Bay except Twenty Chests, which our Cash being low, we are under a necessity of reserving for the occasions of our Investment here and at St. Davids till another Supply arrives.

Ordered that the Treasure p Lapwing, Prince William & Prince of Wales be delivered into the Mint to be Coined; Except 20 chests to be reserved for our own occasions.

And to be in readiness to answer the Calls we may expect shortly to be made on Us by our own and the St. David Merchants it's agreed to dispose of Twenty 20 Chests of Silver on the best terms we can, and the President and Warehousekeeper are desired to enquire amongst the Shroffs for Purchasers.

Twenty Chests of Silver ordered to be sold.

Padre Renatus produces to the President a Commissn. from the Vicar General of the Order recd. from France nominating him Head of the Mission in the Indies. But: The Board having determined to continue Padre Severini to be Chief Pastor here, He should in no manner disobey their Orders Which the President recommended to him punctually to observe.

The President acquaints the Board that Padre Renatus had been with him, when he produced a Commission from the Vicar General of the Order received from France by the Ship lately arrived at Pondicherry, to Nominate him the said Renatus to be head of the Mission in the Indies in the place of Padre Thomas deceased; But that as the Board had already determined to continue Padre Severini to be Cheif Pastor of the Church here he should in no manner disobey our Orders in that respect, but submit entirely to them, which the President had recommended to him punctually to observe, that thereby Peace and good order might be preserved amongst the Fathers of the Church.

Letter to Tellicherry signed.

A Letter to Tellicherry of this date Signed to Advise the Arrival of the Prince William, Lapwing & Prince of Wales from England, & other material Occurences respecting our Honble Masters Shipping.

Two troublesome Men on board the Lapwing ordered ashore.

Tho President acquaints the Board that a few days since Captain Watts of the Lapwing representing to him that there were on board his Ship two men of very turbulent and mutinous dispositions & the inconveniencies he apprehended might grow from their continuing on board, he, the President, had thought proper to direct the Captain to send for them ashore in order to their being put on board some of the larger Europe Ships where they may better be kept in order and where their bad example may not have such ill Effects; That on his being acquainted the said two Men by name Archibald Douglass and David Shepherd were desirous of justifying themselves before us, he had directed Captain Watts to be in attendance here to day with such of his Officers as are ashore, and six of the Foremast Men which the said Douglas and Shepherd had desired might be sent for.

They desire to have a hearing before the board.

They, with Capt. Watts &ct. attend the board.

The said Douglass and Shepherd Captain Watts and the others attending accordingly they were all called in; when Captain Watts delivered to the Board a Paper as entered hereafter, containing the matter of his complaint against the said Douglass and Shepherd, which being read in their hearing, and they called upon for what they had to say in their justification they offered only their own negative Assertions in opposition to the Facts charged on them supported by the general Testimony of the Officers and Foremastmen present which last (though sent for at their desire) were not only far from offering any thing in their vindication but one and all affirmed that the said two men were the sole cause of all the disturbances and uneasiness that had happen'd in the Ship. The Board having consider'd of the matter and the ill consequences that such a mutinous disposition spreading itself further on board such a vessel as the Lapwing might be attended with, agreed to keep them ashore here till opportunity offers of their going on board some of the Company's larger Ships.

They can produce nothing in their favour.

They are kept ashore in order to their being sent on some of the larger Ships.

Thirty Europeans order'd to Fort St. David.

ORDERED that a draught of Thirty Europeans be sent to St. Davids to recruit that Garrison.

The President & Wareho. kr. endeavour to dispose of some Silver but find it impossible to do it on any reasonable terms Owing to the Country Mints being shut up. Report of the Nabob's intention to have the Rups. of 12 Penny Wt. Fine.

The President and Warehousekeeper report to the Board that they had endeavoured to dispose of some Silver agreable to order of Consultation of the 28th. of last month, but that they had found it impossible to do it on any tolerable terms, owing to the Country Mints being all shut up by the Nabob's order and all Shroffs business thereby at a full stand. That it's reported the Nabob intends shortly to issue out orders for Rupees of Twelve 12 Penny weight fine to be only current hereafter in this Subahship, and to suppress those that are so now, on Account of their being of so low a Touch as two, 2 Penny weight worse, which the Minters have brought them to by tampering with the Officers of the Surcar, for some time past.

— *FORT ST. GEORGE, MAY 1744* —

The Minters from Covelong & St. Thomé &ct. represent to the Nabob, the Great Loss sustained to the Surcar by the Business done in Our & the Pondicherry Mints. But Receive no Answer from him on that subject.

The President also acquaints the Board that by his Advices, several of the Minters from Covelong, S^{t}. Thomé and the other Mints belonging to the Surcar had been to Arcot to represent to the Nabob the great loss that was yearly sustain'd to the Surcar and them by the business done at our Mint, and that of Pondicherry in order to move the Nabob to put a stop to them and to take away the Chops for the Arcot Rupees, but that he had given them no answer as yet nor any ways interrupted us in our Coinage or the French in theirs.

Debates concerning the Lapwing & P. William's going to the Bay. The P: William to be dispatched thither with the First 50 Chests that are Coined. The Lapwing to be kept for the next 30 Chests.

It being then debated whether to send the Lapwing away to the Bay with the first Thirty Chests of Treasure that shall be coined, and keep the Prince William for the next Fifty Chests: The Board were of opinion as the Lapwing has nothing on board for the Bay, and the Prince William has not only Supplies of Stores and Merchandize but also the latest advices from England, besides the earlier in the season is looked upon most favourable for the Passage, wherefore it is of most consequence to Our Honourable Masters Affairs in Bengall that the Prince William should arrive there as soon as possible, and therefore agreed to dispatch her with the first Fifty Chests that are Coined which will be finished by the time Captain Langworth can have refreshed his People and be in readiness for sailing, and that we keep the Lapwing for the next Thirty Chests.

List of the Presents propos'd for the Nabob &ct. laid before the Board & Approved.

The President and Warehousekeeper lay before the Board a List of the Presents proposed for the Nabob, Duan and Minister amounting to Twelve hundred fifty seven Pagodas thirty two fanams and sixty eight Cash 1257. 32. 68, which being approved is entered hereafter.

The Ware-h^{o}.k^{r}. directed to purchase such things out of the Europe Shipping as he thinks may be proper for these occasions.

It being sometimes very difficult when occasions offer of making Presents up the Country to meet in Town with such things as are proper for the purpose, and the Private Trade from England sometimes furnishing such sorts of Toys as are most Acceptable to these People; It's agreed that the Warehousekeeper with the Approval of the President, do buy up to keep by us any things he may meet with among the Gentlemen of the Europe Ships proper for such occasions.

Nicholas Morse.

To the Hoñble Nicholas Morse Esqr.

President and Governour &ca. Council of Fort St. George.

Hoñble Sir & Sirs

I find myself under the necessity, of represents. to your Honour &ct. that there are on board the Lapwing, two Qr. Masters of such turbulent dispositions, that as I believe your Honour &ct. will not judge it proper to continue them on Board, so I am to request Your Orders concerning them.

One of them Archibald Douglas, after many attempts to raise a Mutiny in the Ship continued to give so many proofs of His seditious Temper; particularly, on the 30th. November 1743 that to prevent the Ill consequences of such practices it was thought necessary to confine Him in Irons ; from which, however he was released the next Day, on His promise of Good Behaviour for the Future, A promise, that he has so ill kept, that on the 23d. of this Month being in sight of Zeloan, without any complaint made to the Capt. or Superior Officer on Deck He flung his Mess Allowance overboard, on pretence of its being Bad, and endeavoured all that in him lay to excite the Ships company to Mutiny, whereupon, I called a consultation of my Officers ; a copy of which, is hereunto annexed, to show Your Honour &ct. the reasons, upon which it was agreed, that He should receive Thirty Nine Lashes at the Main Geers.

In consequence of this Resolution, the command to make him fast fell on David Shipherd, whos (*sic*) proper Business it was, but he regardless of his Duty, refused to Obey the command ; for which, he ought also to have been punished, (but when I and my Officers, considered should his Mutinous Disposition be more General, and the Men by surprize, or other Accident, happen to become Masters of the Ship, and prosecute any Peratical designs in Her, they might be capable of doing much Mischief in these parts, where there is hardly any Shipping that could come up with Her) it was thought proper only to confine Shepherd with the other in Irons till we Arrived here, and had this Opportunity of referring to your Honour &ca. to order, what you shall think further necessary to be done on the Occasion.

I am with much respect
Hoñble Sir & Sirs
Your most obedt. humble servant
Henry Watts.

Fort St. George
28th. April 1744.

Whereas, Archibald Douglas Quarter Master on board the Hoñble East India Company Ship Lapwing on the 23d. April Anno 1744 Having without any complaint to the Captain or Superior Officers on Deck under the pretence of his provision being Bad Flung overboard his Mess Allowce. making great grumbling amongst the People in order as much as lay in His power, to raise a Mutiny amongst the Ships Company; which he has several times before Attempted, particularly on the 30th.

——*FORT ST. GEORGE, MAY 1744*——

November 1743, for which he was confined in Irons, but on promise of Good Behaviour for the Future (was released the Day afterwards) which he has very badly complyed with.

We the under written Commander & Officers on board the Lapwing, knowing the dangerous Consequences that often Attend Mutinys of this sort for the security of our persons, & Charge intrusted to us, as likewise to deter others from Committing the like Fauls (*sic*) judge it proper that He receive at the Main Geers Forty Lashes lacking one.

Nicholas Morse Esq^r.	Govern^r. President.	Monday the 14^th.
William Monson.	Thomas Eyre.	
Edward Harris.	William Johnson.	
John Savage.	Samuel Harrison.	

The two last Consultations read and Signed.

General Letters read Viz^t.

N^o. 44 & 45 both from the Deputy Gov^r. and Council of Fort S^t. David: The first dated 6^th. Inst^t. in Answer to what we wrote them about the Sloop Carolina and building the Boat house &c^t. Advising the state of the Salem Country and the little prospect of doing any business there; And the Arrival and Imports of the Neptune a French Europe Ship at Pondicherry, desiring a New pair of Bale Screws and inclosing an Indent for Stationary Ware, The other of the 10^th. instant desiring a supply of Ten thousand 10000 Pagodas.

General Letters read from Fort S^t. David relating to the Carolina Sloop. Building a Boat house &c^t. The small prospect of doing business at Salem The arrival of the Neptune a French Europe Ship at Pondicherry. Desiring a pair of Bale Screws, A supply of Money & Stationary Ware.

——FORT ST. GEORGE, MAY 1744——

The Merchants at St. David's offer of 100 Bs. Salampores at 20½ ℙ Corge, to be accepted. A supply of Money ordered thither.

The President communicates to the Board a Letter to him from the Deputy Governour of Fort St. David advising that some Merchants had made him an offer to provide an hundred 100 Bales of Salampores at Twenty Pagodas and a half 20½ ℙ Corge brown, which the Board beleiving will be very acceptable in England, a Letter is now drawn out and Signed, recommending to the Deputy Governour and Council to lose no time in coming to an agreement for them, and to Advise that a Supply of Ten thousand 10000 Pagodas will be sent them overland this evening.

Their Indent for Stationary Ware to be complied with.

ORDERED that the St. Davids Indent for Stationary Ware be sent thither on the first Sea Conveyance that offers.

The Minters refuse to take the Dutch Dollars at 14 dwt. Worse than Standard. They are assayed & turn out 15 dwt. Worse.

A letter from Mr. Foxall the Assaymaster read as entered hereafter, representing that the Minters refuse to receive the Dutch Dollars at 14 dwt. Worse than Standard, as they have hitherto done, and that he finds them when Assay'd Singly and in Parcels to come out 15 Penny weight worse than Standard.

They are delivered the Minters at that rate.

AGREED that the Dutch Dollars be accounted for with the Minters at the rate of fifteen Penny Weight worse than Standard, since we cannot expect they will go on with the business on such disadvantageous terms as certified to Us by the Assaymaster to be the Case, in regard to the difference of what have hitherto been taken at in the Mint and their real Value.

The French send People into our Weaving Towns to procure Musters of our Midling & Outcry Cloths.

And to enquire the Prices. They give out a large quan. is wanted at Pondicherry. The President directs the Merchants to send Persons to prevent their prejudicing the Company.

The President acquaints the Board that the Merchants had been with him two days past and produced Letters from their People in the Weaving Towns advising that some persons from the French had been there to procure musters of our several sorts of Middling and Ordinary Cloths, and to enquire the prices; And that they had given out as usual that a large quantity was wanted at Pondicherry. That thereupon he had ordered the Merchants to send immediately some Persons they could confide in to know the Truth and what the French Agents were about That if they found any Attempts were making to engage the Weavers in their business in prejudice of our Company they should do their utmost to prevent it, which he thinks might be done with the less difficulty (unless the French should Advance on the prices) as these Weavers had been entirely employed by our Merchants for Several Years. And he supposes the French coming into these parts for the Ordinary Sortments to proceed from their being disappointed at Salem, from whence and from Worriapollam and Chemanaickpollam they have been supplied hitherto & never before attempted any but Fine Cloths in these Parts.

The Nabob not having yet fixed the standard of the Arcot Rupee, no Silver can be disposed of at present.

The Nabob having as yet come to no determination about fixing the Standard of the Arcot Rupees the Shroffs are not willing to purchase any Quantity of Silver at present only carrying on some little business with the former Rupees, so that no Silver can yet be disposed of.

—*FORT ST. GEORGE, MAY 1744*—

As the Thirty Chests of Rupees for the Lapwing will be ready in three or four days a Letter to go by her is now agreed on, notifying to the Gentlemen in the Bay Our Hoñble Masters Order about sending her to the West Coast, desiring them to send thither on her the things we indented for the 15th. November & to fill up her Tonnage with Patcharee Rice.

Letter to Bengal p Lapwing agreed on, relating to that Ships dispatch to Marlbrô and the necessary things to be sent thither on her.

—*FORT ST. GEORGE, MAY 1744*—

AGREED to permit the Deputy Govr. and Council of Fort St. David to take in that parcel of the Turned Out Cloth at the prices they mention, to prevent it's going elsewhere.

Agreed to permit them to take in the Turned out Cloth they mention.

The Secretary acquaints the Board that having on receipt of the Bombay Letter just now read been sent to tender the Bills it inclosed to Coja Sultan David, for acceptance and payment, he had refused either, upon which by the President's order he had applied to Mr. Casamajor as Notary Publick to protest the Bills which had been accordingly done and he now lays them before the Board with their Protests annex'd. AGREED to return the said protested Bills to Bombay on Saturday next by Patamar, that Copies be made thereof to send thither by a future Conveyance, and that the Notary's Bill be charged to that Presidency.

——*FORT ST. GEORGE, MAY 1744*——

Journal Parcels for March read.

The Accountant reads the Journal Parcels for the month of March.

The Nabob sends his Pherwanna to the Mints of the Surcar to Coin Arcot Rupees of 7 Penny wt. better than Standard & 27 ℔ Mill for the Charge of Coinage. The Shroffs refuse to Coin any Rupees.

The Nabob has at length sent his Pherwanna to the several Mints of the Surcar to coin Arcot Rupees of seven 7 Penny Weight better than Standard and to be allowed twenty seven ℔ Mill for the charge of Coinage, and that these Rupees are to be the Current Standard hereafter; but the Shroffs not being satisfied with that Touch, or Paying 27 ℔ Mill instead of 17, as before, have hitherto refused to Coin any Rupees.

Debates Concerning the landing the Mountague's Pepper.

The Mountague having as we are inform'd Five hundred Malabar Candy of Pepper on board Consign'd from Tellicherry to Bengall, it was debated whether it might not be for the Honble Company's Interest to land it here, that should the Ship from Bombay with part of her loading of Coffee be sent round we might be in a Condition to fill her up and also to dispatch another Ship by having this Pepper to Assist us on the occasion and because we cannot so well depend on having the Bales from the Northern Settlements early enough for the purpose, And considering also the great uncertainty of all Affairs in these Parts, and how subject to disappointment our Business has been of late from One Accident or Another, that therefore it may be most prudent to make use of the Opportunity which presents itself of Acting with security and providing for the dispatch of both Ships, and as also from the Circumstances respecting the Ships to be sent to Europe this season, that there will in all probability be no Goods for surplus Tonnage, and that this Pepper if sent to Bengall must be on whole Freight to Europe, that it may not only be of service for the purpose already mentioned, but will save the risque of it thither, for all which Reasons we doubt not Our Honourable Masters will approve of Our coming to a resolution to take it ashore here.

It's agreed to take it ashore here.

An Order to Capt. Freeman to deliver the Pepper he has on board for Bengal.

An Order to Captain Freeman of the Montague of this date signed as entered hereafter to deliver the Pepper he has on board on the Honourable Company's Account, pursuant to Our Resolution of last Consultation.

The Persons sent by the Merchants into the Country on Notice of the French Brokers being at the Weaving Towns, return with an Accot. that with the Assistance of the Hovildars they had settled matters in our favour & The Hovildars had promised that unless the French advance upon our prices they should not carry away any Cloth. The French Brokers leave the Weaving Towns.

The President acquaints the Board that the Persons whom the Merchants had sent into the Country on Notice of the French Brokers being at the Weaving Towns are returned with an Acct. that the French Brokers & Weavers had several meetings, and that several of the latter were inclined to engage with them in order to get some ready money into their hands, but that our Brokers had represented to them that if they offer'd to do so, they would immediately apply to the Hovildars, and oblige them to pay what they stood indebted; That such a behaviour was shamefull in them who had for several years worked only for the English; That if they desired a small Advance of Money they should have it from them, all which with the assistance of the Hovildars, had settled the matter in our favour and the Hovildars had promised on behalf of their People that unless the French advanced on our prices they should not carry away a piece of Cloth from Us, but in that case, the Weavers were poor people and must make the most of their Time and Labour. The same Persons add that before they came away the French Brokers had left the Towns.

— *FORT ST. GEORGE, MAY 1744* —

A Letter from the Nabob. He desires to have 20000 Pags. worth of Silver at the Cheapest rate & For the future to be Acquainted with what Silver is imported in this place, before it be sold.

The President reads in its translate a Letter he received yesterday from Annawardeen Cawn our Nabob as entered hereafter: In which he desires to have Silver to the Amount of Twenty Thousand Pagodas at the cheapest rate, and that for the future he may be acquainted with what Silver is imported in this place before Sale is made of it.

The Purport of the said Letter considered. Agreed to refer him to the Merchants of this place for any Silver he may have occasion for at this time & To acquaint him that the stoping the sale of any silver imported here 'till he was acquainted thereof would be a great hindrance to business.

The occasion of this Letter, which we can't but look upon as a very extraordinary one, we imagine must proceed from the Nabob's resentment at the Shroff's behaviour in endeavouring to thwart his designs in having the Rupee Coin Restor'd to what it was some years past and therefore to convince them of his being in earnest he is now resolved to Coin those Rupees himself to circulate in the Province for which he now wants Silver of Us; But as Negotiations of this sort are New, and for which there is no Precedent and may if complied with, involved Us or those that Succeed to the Affairs of this Presidency in many troubles and vexatious disputes with the Country Government, and if once began in this instance may be very difficult to put a stop to, that this has been particularly recommended by our Honble Masters to be carefully avoided and has been the constant Rule observed to this time, whereby many inconveniencies have been prevented which a different practice might have brought on this Government. That therefore we referr him to the Merchants of this place for what Silver he may have occasion for now and in future, which the Nabobs of Arcot have hitherto done by their Servants or Persons residing in the place, and that we further represent to him in Answer to that part of his Letter in which he desires to be informed of what Silver is imported here before it is sold, that it would be the Cause of delay in business and might greatly detriment the Person who has any to dispose of, This we hope will satisfy him, & it's probable the Shroffs will now make their peace with him and submit to his will in this matter, & that he will then drop the design of coining himself; But however that be that we by no means consent to the establishing any such Custom or Usage in the Place, of a tendency so prejudicial to the Interest of it, The well carrying on of business & against the freedom of Trade allowed to every one here; That whilst we have the Orders & Authority of of [*sic*] the Honble Company to support us we are determined not to give up the least point, wherein the general Welfare is concern'd, at the instance of any one whomsoever.

An Answer to the Nabob's Letter being hereupon prepared by the President is now read & approved of; Copy of which is entered hereafter. An Answer to the foregoing Letter read [&] approved.

From Nabob Annawardean Cawn Bahauder, Subah of Arcot received May 1744.

I am in want of Silver to the value of Twenty thousand Pagodas for the Use of the Surcar, I therefore write this to desire Your Honour would let me have the best sort and at the Cheapest rate; When you send me your Letter in Answer to this, I shall send you the Money for it; and for the future when Silver is imported in Chinnapatam by Shipping, acquaint me first before you give Orders for it's being sold.

What can I say more?

To Nabob Annawardean Cawn Bahauder.

I have received your Excellency's Letter and observe the Contents. As to the Silver you have occasion for, I have enquired amongst the Merchants and find that your Excellency by sending yo^{r}. Servants may readily be supplied by them with the quantity you write for at the Market price, And they will have all the Assistance in my power when they come here for that purpose as I take great pleasure in obliging your Excellency.

As to what you are pleased to mention about first advising before any Silver is sold, I beg leave to represent to Your Excellency, that such a method would very much impeed the business of this place and often greatly detriment the Merch^{t}. who brings Silver here, as some times his stay is not more than Three or Four days in his way to other parts, and therefore his Affairs will not permit him to lose any time in exchanging his Money. As your Excellency will I presume according to Antient Custom have some Merchants to reside here to Act for Your Excellency in the Circar Business, they will always be in the way of purchasing any Silver in like manner as the other Persons employ'd in Such Negotiation here, and when recommended by you will be entituled to a particular regard.

What can I say more?

The York's Packet opened & found to agree with it's List; Then were read Our Honourable Master's Commands not before received — The York's Packet opened.

The Cowle for the Ruby Brokerage being near Expired.

The President acquaints the Board that the Cowle for the Ruby Brokerage expiring the 10th instant, And the Present Farmers declining to hold it any longer, he had received proposals from two other persons, namely Nairo Rayloo and Nairo Vencatachilum, both reputed Substantial Men to farm that Revenue for Five Years at Five hundred Pagodas ℔ Annum to be paid quarterly, being the Terms of the Present Cowle, which he beleives is full as high as the present Circumstances of the Pegue Trade will admit of; but that he had proposed to them and they declared themselves content that if the Board should receive no better proposals and think proper to grant the Cowle to them, a Clause should be incerted therein, obliging them to pay after the Old rate of Eight hundred 8 '0 Pagodas ℔ Annum: in case of the revival of the Pegue Trade, for such Part of the Term of the Cowle as shall not then be expired. The Board having no reason to expect any better offers, agreed to accept these, And Ordered a Cowle to be drawn out accordingly to be delivered them on the Expiration of the Present Cowle.

A New Cowle to be drawn out for Nairo Rayaloo & Nairo Vencata-chilum.

Ten or Twenty Chests of Silver ordered to be sold.

As we shall Soon be in want of Cash to answer the demands we may Shortly expect to be made on Us by our own and the S^{t}. David Merchants: It's agreed to dispose of Ten or Twenty Chests of Silver to Supply our Cash, and the President and Warehousekeeper are desired to Use their Endeavours to find purchasers, which the present Scarcity of Gold in the place renders very difficult.

But 7 of the 15 Soldiers put on board the Win-hester are delivered ashore. Capt Steward acquaints the Paymaster that of the remainder, Four were dead & Four deserted.

The Paymaster acquaints the Board that only Seven Soldiers coming ashore here from the Winchester of Fifteen mentioned in the List to be put on board that Ship, he had asked Captain Steward the reason of it and received for Answer, That when he took the Command of the Winchester he was informed that Two of the Soldiers had died and two deserted, So that there were but Eleven on board, of which two were since dead and two more had deserted at the Brazils.

Twenty five Chests of Silver to be delivered into the Mint to be Coined into Madrass Rupees.

ORDER'D that twenty five Chests of Silver be delivered into the Mint to be Coined into Madrass Rupees for Bengall as the Arcot Rupees coined for the Honble Company have been hitherto no more than of 4½ dw^{t}. better than Standard, and the Rupees now ordered by the Nabob are of 7, probably ours may be less in esteem when those of the higher Touch find their way thither, for which reason we are induced to Coin a larger Quantity of Madrass Rupees at this time 'till we See what turn this Affair is like to take, and to prevent any loss that might happen by the Arcot Rupee.

—*FORT ST. GEORGE, JUNE 1744*—

As we have an opportunity of procuring some Tin in this Place and at S^{t}. Thomé, which we hope may be of Some benefit to the Yorks Voyage: It is agreed to buy Three hundred Candy and Send on board with all expedition, the Cost of this will amount to the Sum Our Honourable Masters are pleased to direct in the 8th. parrā of their Letter now received.

Tin to be purchased for York's Voyage to China.

ORDERED also that what Redwood of the Sort proper for China that can now be had, be purchased for the York, which we apprehend will be a very inconsiderable Quantity, as the Pulteny and two Macao Ships have already taken on board most of what has been imported this Year.

What Red-Wood can be procured of the sort proper for that Market.

The President acquaints the Board that he had been informed from Arcot that the Nabob on the receipt of the President's Letter on the Affair of the Silver Seem'd well Satisfied to have that business go on in the Same Method as formerly, and that his head Shroff there had since Appointed Some Persons here to transact all Such as related to the Circar, which we hope will prevent any Applications of that Nature to us in future.

The Nabob on receipt of the President's Letter relating to the Silver, is desireous that that business may go on as formerly And Appoints persons to transact all matters of that kind relating to the Circar.

The Pulteney being to Sail in few days for China, it's agreed to Advise the English Supra Cargoes at Canton of the York's arrival here and of the Cargo we propose to Send on her.

A Letter to go by the Pulteny to the English Supra Cargoes at Canton, agreed on.

AGREED to transmit to the Gentlemen at Fort S^{t}. David such Extracts of Our Honourable Masters Orders for the Investment of this Coast, just now read, as may regulate their Conduct in the provision to be made there.

Extracts of the Company's Orders for the Coast Investm^{t}. to be sent to F. S^{t}. Dvaid.

And also to forward the Anjengo Packet to Bombay by the way of Surat; To advise the arrival of Our honourable Masters Ships York & Winchester and of the Winchelsea's having touched here in her way to the Bay.

The Anjengo Packet for Bombay, to be forwarded by the way of Surat.

The Winchelsea not being yet Sail'd it's agreed to advise by her to the Bay of the York's arrival from England and the Orders we have received from thence concerning her. and to forward thither the Packet which came inclosed in ours by that Ship.

A Cowle for the Ruby Brokerage drawn conformable to Order of last Consultation and of yesterday's date read And signed, And delivered the New Farmers.

A Cowle for the Ruby Brokerage Read and Signed.

The Goods we have already on hand and what more we may almost certainly depend upon by the month of September, leaving us no room to fear a disappointment in sending Our Honble Masters at least one early Ship even besides a Ship that may possibly be sent hither to fill up from Bombay: It was Unanimously agreed not to lose the opportunity of performing what we beleive may be so acceptable a Service, And that the Prince of Wales be the Ship as she has nothing but Copper on board, for the Bay on the Honble Company's Account and her demorage will commence So much Sooner than any of the Ships yet to be expected.

The Dispatch of a Ship to England in September taken into consideration The Prince of Wales pitched upon for the Ship.

—*FORT ST. GEORGE, JUNE 1744*—

Eight Chests of Silver sold at 14 3/8 & No better price offering for a further quantity, it's agreed to sell Nine Chests more at 14½.

The President & Warehousekeeper report to the board, that they had disposed of Eight Chests of Silver the 4th. instant at 14⅜ $ ℔ 10 Pagodas, and that they had endeavoured to Sell a larger Quantity at that rate but could not, and that the highest price Since offer'd was 14½ for nine Chests, which it's agreed to take as we cannot see any likelihood of the Price rising but rather falling for some time, as every one will be for disposing of the Old Rupees, being uncertain how long they may be permitted to pass Current in the provinces and 'till they are abolished the Shroffs must Coin the New at a great disadvantage, which Will occasion them to be very backward in it; One hundred Ounces of Standard Silver producing of the New Rupees only Two hundred and fifty five, Of the Old Two hundred Sixty Six And as all payments of Bills are as yet made in the latter those of the higher touch will only be made use of on particular Occasions, and consequently the call for them less than for the other, which must of course lower the value of Silver 'till there is an entire prohibition of the inferiour sort of Rupees.

The Present for the Nabob being ready to be sent him, Hodjee Addee is thought a proper person to Attend the Same as it may be a favourable opportunity for that Gentleman to establish a good opinion of Us with the Nabob, & The President is desired to ask this favour of Hodjee Addee.

The present Nabob being as yet a Stranger to most of the Affairs of the province and more especially to those relating to the European Nations & as there may be persons about him, who from Interest or Some other Views may represent to him things to our prejudice in many respects, at his first entring on his Government and before he may be rightly informed of the real matters of Fact; The President proposes to the Board that as we are now sending a Present to him as usual on his Accession: We desire of Hodjee Addee to accompany it. And that he make use of the Opportunity to discourse with the Nabob on such matters as may give him a knowledge of what most Concerns Our Interest and the establishing a good opinion of Us with him as well as with his Duan in whom he places an entire Confidence & who executes his Orders in general, The Nabob's Age of Eighty five year's not permitting him to do much himself; By these means we may hope to baffle any sinister designs intended against Us as well as prevent the Nabob's receiving any impressions to our prejudice & as this Gentleman Hodjee Addee is esteemed a person of an extraordinary good Capacity & Address & we have all the reason to beleive him perfectly devoted to Us, that he may be very Serviceable, to us and the sending him may answer very good purposes, which being the opinion of the Board the President is desired to Ask this favour of Hodjee Addee.

Money paid in for Siver Sold.

William Monson Import Warehousekr. pays in Eight thousand 8000 Pagodas on Account of Silver Sold.

Ingeram 300 Pieces of Gingham No. 1 and 2 to be provided there

Maddepollam 200 Pieces of Collowapores. The Gentlemen at those places to half wash the Fine Cloth they send up for September.

Saib Judda, the young Nabob is Murdered at Arcot by Edel Cawn, at the instigation of Mortas Ally Cawn, the Person who killed his Father.

The President acquaints the Board that he had yesterday received an Account from Arcot: That on the 23d. Instant the Son of Our late Nabob Subder Ally Cawn, named Saib Judda, was murdered there with Some others of his Relations and Family by Edel Cawn a Patan, at the Instigation of Mortas Ally Cawn, the Same Person who had killed the Father in October 1742, That he had promised this Patan and some others a Lack of Rupees to destroy the Nabob, and another Lack for doing the same to Saib Judda and four more. And by putting these Persons out of the way he expected to have had it in his Power to Seize the Government and by Sums of Money to get it Confirmed to him. The Mosque was the place pitched on to put their design in Execution against the Nabob: They had waited Eleven days in Expectation of Seeing him there, But an indisposition had kept him from going, And the 22d. which was Friday when they perform Service at the Mosque he purposed to have gone, but having ordered our People to Attend him that morning with the Present, he was [so] curious as to open and look on every Article which took up two Hours, and after our People were dismissed he[sent] to know if the Service of the Mosque was over and [word] being brought that it was, he retired, to his Chambers providentially escaped from the Wicked design formed against his Life. The Patan and Eleven of his Company were cut off immediately and two more executed One of [them] confessed the whole Affair and had the obligation above Signed and Sealed by Mortas Ally Cawn for the payment of the Two Lack on their performing the above Condition.

Nabob Annawardee Cawn very narrowly escapes being killed also. The Murderer & Eleven of his Companions are Cut off And one more Executed.

The Nabob, is preparing to send his Son aginst (*sic*) Vellore.

The Nabob has hereupon Sent for his Son from Tritchanopoly, and doubled the Guard at Arcot, and it's Said is preparing to go against Vellore Fort where Mortas Ally Cawn is at present in order to bring him to Justice.

Received by Peons from Fort S^{t}. David a General Letter of the 3^{d}. Instant. 6

At a Consultation

Present

Nicholas Morse Esq^{r}. Governour President. Monday the 9th.
William Monson. Thomas Eyre.
Edward Harris. William Johnson.
John Savage. Samuel Harrison.

Last Consultation read and Signed.

General Letter N^{o}. 68 from the Deputy Governour and Council of Fort S^{t}. David of the 3^{d}. instant read inclosing Monthly Papers, advising that their Merchants promise their endeavours to provide the Additional Blue Cloth and to comply as near as possible with the directions contain'd in the Extract of the List of Investment transmitted thither the 7th. Ultimo, and also what they say concerning the quantity of Cloth they expect to procure for this year's Investment: And requesting a Supply of Twenty thousand Pagodas.

Captain Crabb of the Durrington purposing to sail this Evening for the Bay and the Rupees being gone on board: A Letter to accompany them is now read and Signed: desiring also the Gentlemen in the Bay not to send us any more Arrack, as what we have already here will not fetch Invoice Price, and that they will send us on the Sumatra the Guns and Medicines that may be on board the Duke of Dorset for this Presidency should that Ship proceed directly thither without touching here.

The Import Warehousekeeper pays in Seven thousand nine hundred twenty three Pagodas and a half on Account of Silver Sold, And One thousand Pagodas on his running Account.

Agreed that Two thousand 2000 Pagodas be Advanced Sunca Vencata Rama & Ambaltaudy on Account of the Investment.

Ordered that Three Chests of Silver be Coined into Rupees for Vizagapatam.

It being then debated how to get the Cloths hither from Ingeram and Vizagapatam in September, for which Service we have hitherto depended on the Princess Augusta's Arrival from the West Coast, and it being considered that should she not come in before the 20th. or 25th. of the month, the time it will take to Shift her may make it so late before we can send her to the Northward as to endanger our being disappointed of those Goods in time. It was resolved if the Princess Augusta does not come in by the 25th. to accept the offer now made us by the Owners of the Galatea to hold that Ship in readiness to undertake that Service by the 1st. or 2^{d}. of next Month.

Ordered that the Wares and Stores indented for from Vizagapatam and Ingeram be got ready to Send thither on either of the abovementioned Vessels.

The Prospect of the Investment at this place and Fort S^{t}. David, being then taken into consideration with regard to the having a Sum in Cash to Answer the several demands that may be made by our and their Merchants which together may be computed for near Three thousand Bales unless Some unforeseen Accident Should happen: The Silver we have hitherto been able to Sell off will go but little way to serve this purpose, wherefore there is a necessity of disposing of a considerable Quantity for the carrying on the Investment.

The great demand for Gold Mohurs at Bengall has almost drained our place of what Gold there was and has of late been brought in, which have been exchanged for the Arcot Rupees of the former Coinage, these remain in Town and occasion Silver to be in little demand and so Scarce have Pagodas been of late from the melting them down for the Gold Mohurs that the Shroffs have not yet been in a capacity to take out the Silver from our Warehouse which they agreed for last month; Even the Shop of Boocunjee Cossidos who is Shroff to the Surcar and the most eminent in his

——FORT ST. GEORGE, JULY 1744——

business in the Province: which demonstrates the great difficulty there is in Money Affairs at this time, and that whilst it continues it must very much Affect that of Silver.

It was agreed that as this is an Affair of great importance, we must endeavour by all Methods possible to raise a Sufficient Sum of Pagodas to furnish the Merchants, as no other Coin will pass in the Country for the Investment; That the Sale of Silver is what we must chiefly depend on, Since all others may possibly fail us, and that we must on no Account Suffer the Investment to languish for want of a proper Supply. That therefore it be recommended to the President and Warehousekeeper to make Sale of at least Forty Chests of Silver on the best terms they can, so as not to exceed fifteen Dollars for Ten Pagodas, and to allow One or Two Months Trust, provided it be not taken out of the Wareh°. 'till paid for. This being our only hopes to engage the Shroffs, who by Such a Credit may be enabled to Collect Money from their Several Shops in the Province to Answer the Payments: That if possible the Sale of the Silver be finished by the end of this month, when the Judda Ship may be expected with a large Quantity & be a further impediment in our way, especially if part of the Silver by that Ship should be exchanged for Gold Mohurs, of which there is a likelyhood from the adva[nce] arising by the Exchange. That the Mocha and Bussora Ships in August will bring more, and from that time to December there is seldom any demand for it; for all which reasons the disposing of it as soon as possible is not only necessary but has all the Appearance of being Advantageous to the Hoñble Company, notwithstanding from the present Circumstances of the Place the terms may be somewhat less favourable than in former Years.

— *FORT ST. GEORGE, JULY 1744* —

William Monson Import Warehousekeeper delivers in Fourteen thousand 14000 Madrass Pagodas being So much received of Linga Chitty in part Compliance with the Agreements he made with us for Eight Chests of Silver the 26th. June and 2d. instant.

The President then acquainted the Board that Two of the Town Shroffs expecting to be possessed of about Ten thousand Madrass Pagodas in few days, had made him an offer of them at 8⅞ ℔ Cent Batta: Which being considerably cheaper than they have been for some time, or than we had any reason to expect, And we not having yet got the Sum we want for the Northern Settlements the President is desired to agree for them.

The consequences of our not receiving the Northern Cloths in time for a September Dispatch being considered, and also that if the Princess Augusta should arrive even within these two or three days, it may not be possible for us to get her away to the Northward so Soon as the Galatea, that will be ready by the time we expect to get in the Madrass Pagodas we purpose to Send on her. It's agreed that we cannot depend any longer on the Princess Augusta's coming in and that the Galatea be got ready with all expedition to go on that Service.

And as at this Season of the Year some time may be Saved by ordering her to take in the Ingeram Cloth first, and then to proceed to Vizagapatam, it's agreed to give Orders accordingly; To send on her Ten thousand Madrass Pagodas for Ingeram, Ten thousand more Madrass Pagodas for Vizagapatam, And such Wares and Stores as have been indented for from both those places.

Agreed to dispatch Peons to Vizagapatam and Ingeram with Advice of these our resolutions, That the Gentlemen at those places may hold themselves in readiness to give the Galatea the quickest dispatch.

Agreed also to order Mr. Hallyburton at Maddepollam to send away the Vessel that brings his Goods with what Cloth & Chay Goods may be ready by the 25th. of August.

AGREED to grant Mr. Andrews's request to come up hither from Maddepollam for a few days.

And to advise to Anjengo of our having forwarded their Second Packet to Bombay.

A Letter from Mr. John Stratton read as entered hereafter on the Subject of the third Paragraph of the General Letter from England ℔ Hardwicke, dated the 8th. June 1743, concerning his being reported to be in Debt, offering us any proof we shall require that his Circumstances have been misrepresented in England, & praying of us to give Our Honourable Masters our thoughts of that matter in our Next Letter. The Board beleiving it unnecessary to put Mr. Stratton to any Such Proof, agreed to comply with his request in the close of his Said Letter.

The President also observed that those Gentlemen had told him they received the New Mexico Silver of the Supra Cargoes of the Edgebaston by Invoice without opening the Chests, and that should this Silver not Answer in weight, when these Gentlemen come to Sell it, better than most of the Silver received this year from England, (which has come out considerably Short of Invoice, though the Shroffs had been prevail'd upon hitherto to receive it agreable thereto,) Some disputes might arise: To prevent which he proposed that two of the Members of the Board Should be present at the opening and weighing off that Treasure, and Mess^{rs}. Nº. 75, from the Deputy Governour & Council of Fort St. David of the 7th. instant, acknowledging the receipt of the money sent them the 1st. & inclosing monthly Papers.

——FORT ST. GEORGE, AUGUST 1744——

N°. 76, from the President & Council of Bombay of the 15th. June in Answer to what we wrote them the 26th. April about the Edgebaston, Advising that they shall not send a Ship round this way to fill up; desiring Us to bring to their Credit if found an Anchor lost by the Success Galley at Vizagapatam, and to forward an inclosed Packet for Bengal, Advising also the Arrival of the St. George and Winchelsea on that Coast and their Dispatches for the Bay.

N°. 77 from the Chief and Council of Surat of the 3d. July serving for Cover to the foregoing Letter from Bombay.

A Report of Messrs. Monson and Johnson read as entered hereafter, Shewing a deficiency in the Weight of the Duke of Dorset's Silver of One hundred thirty three Ounces ten Penny Weights 133. 10, though the Chests appeared in good order; Making the same remark also on the thirty Chests of Silver Messrs. Baillie, Templer and Lodwick received of the Supra Cargoes of the Edgebaston at Mocha which they had been weighed off, and wherein there appeared a short weight of Seventy three Ounces two Penny Weight and a half 73. 2½.

A Letter from Messrs. Baillie, Templer and Lodwik read as entered hereafter, with an Account annex'd of the Weight of each Bag of the Silver they received of the Supra Cargoes of the Edgebaston at Mocha, Setting forth that the same turns out Seventy three Ounces two penny Weight and a half 73. 2½ short of Weight they deliver'd and praying that deficiency may be made good to them together with the difference between the Old Mexico S[ilver] they delivered & the New they received.

As we cannot think Our Honourable Masters would expect that these Gentlemen should be losers by [any] transaction in which they could have no other View [but] to their service, The Import Warehousekeeper is Ordered to comply with the Prayer of the said Letter.

The Import Warehousekeeper pays in Seven thousand five hundred 7500 Pagodas on Account of Silver Sold, And delivers in as entered hereafter the Acct. Sale of the Lead, Flannels, Embossed Cloths, Copper & Madera Wine Sold at Out Cry on Thursday the 9th. Instant, pursuant to order of Consultation of the 30th. Ultimo. The Sale of the Madera Wine having been stoped on Acct. of the Price at Outcry not holding up to Forty Pagodas as was agreed on: The Warehousekeeper is Ordered to deliver it out as it may be wanted at Forty Five 45 Pagodas ℔ Pipe.

The Price of the Copper also after the Sale of One hundred and fifty Candy, falling under Eighty six 86 Pagodas ℔ Candy, the price of Sale we limited, it's agreed to Send all the Prince of Wales's to the Bay & the remainder of the York's except one hundred Candies which there is reason to expect may fetch as good a price here in January next as in the Bay: Besides that it may perhaps enable us to send larger Supplies of Money thither Early in the Year and the lessening the Quantity to be disposed of there may render the sale of it less difficult, especially if the Advices lately arrived at Arcot are to be depended on That a Numererous Army of Morattas are set out from Sittarra under their Generals Ragojee Bosallah and Futta Sing to take satisfaction of the Nabob of Cossimbazar for his Treachery to their former Generals.

AGREED that Five thousand 5000 Pagodas be Advanced Telesinga Chitty and Nellamoota Comrapa Chitty on Account of the Investment.

The State of the Investment on this Coast with regard to the Dispatch of a Second September Ship to Europe being then taken into consideration, it was found that if the Northern Cloths arrive Safe and in time, and the Merchants here and at St. David's bring in the Goods they have promised, there will with the Pepper be pretty near Bales sufficient for Such a Ship as the Duke of Dorset of 460 Tons; But the unusual rains we have had for Six Weeks past having kept the Washers so backward in their business, that instead of being ready to receive the Northern Bales they will not be able to finish those provided here should the Weather even continue fair 'till the beginning of October which cannot be expected or depended on, as September generaly proves a Rainy Month and therefore there Appears no probability of our being able to get so large a Quantity as Seven hundred Bales cured in a

——FORT ST. GEORGE, AUGUST 1744——

proper manner and in time to compleat the Lading of a Second Ship, owing to this Accident not in our Power to hinder; The Washers having been kept most closely to work whenever the Weather would permit.

AGREED therefore to dispatch the Duke of Dorset to the Bay as soon as she has delivered what she has on board for this Place and taken in her Red Wood.

AGREED to send the Prince of Wales's & the remainder of the York's Copper on board the Beaufort for the Bay & to dispatch her thither as soon as we have got Madrass Pagodas enough for another Supply for the Northern Settlements, which its agreed to order to land at Vizagapatam.

HOÑBLE SIR & SIRS

Pursuant to your Order of the 7^th. We have examin'd the Duke of Dorset's Treasure in presence of the Assay Master & purser & find a deficiency in every Chest amounting in the whole to Ounces 133. 10. — as ℔ Account hereunto annexed; We cannot Specify in which of the Bags the deficiency lay, as they were almost all burst & the Silver loose in the Chests which were in good order.

We have also agreable to an Order of the preceding Consultation attended the weighing off the 30 Chests recd by Mess^rs. Baillie, Templer & Lodwik of the Supra Cargoes of the Edgebaston at Mocha which turn out less in Weight than they receiv'd them for Oz^s. 73. 2½ thô the Seals were good & the Chests well bound.

TO THE HOÑBLE NICHOLAS MORSE ESQ^R.

PRESIDENT AND GOVERNOUR &C^T. COUNCIL OF FORT S^T. GEORGE.

HOÑBLE SIR AND SIRS

At the Request of Mess^{rs}. Thomson, Wood and Cobham Supra Cargoes of the Honourable Company's Ship Edgebaston at Mocha, we assisted them with Old Mexico Dollars, for thirty Chests of New Mexico Dollars, which the Merchants refus'd to receive unless they took them on very disadvantagious terms for the Company, and that we might be no sufferers on our part for the Assistance we had given them the Said Supra Cargoes engag'd themselves in behalf of the Hoñble Company to make good to us by your Honour &c^t. the difference of one Pennyweight between Old & New Mexico Dollars and what other loss might ensue upon our taking the Treasure which we received under the Company's Seal as it came out of Europe, without examining into the Contents, as it was not landed lest the Country Government should give Us trouble about it, said to contain One hundred four thousand Six hundred & forty Ounces of Mexico Silver.

Upon our opening the Treasure here in the presence of William Monson & William Johnson Esq^{rs}. we found a deficiency of weight in almost every bag & in the whole of Seventy three Ounces two Penny Weight & a half which we humbly request Your Hon^r. &c^t. would be pleased to order to be made good to Us with the difference of One Pennyweight on the One hundred four thousand six hundred & forty Oz^s. Agreable to the Engagement of the said Supra Cargoes at Mocha, for we have neither Profit nor advantage in it & have said the Company from being very considerable Sufferers. We are with the greatest Respect

AT A CONSULTATION

Present

MONDAY THE 20TH

NICHOLAS MORSE ESQR. GOVERNOUR PRESIDENT.
WILLIAM MONSON. THOMAS EYRE.
EDWARD HARRIS. WILLIAM JOHNSON.
JOHN SAVAGE. SAMUEL HARRISON.

Last Consultation read and Signed.

William Fielding a Soldier Petitions for his discharge which is granted he having served out his contracted time.

The Import Warehousekeeper pays in Six thousand seven hundred and fifty seven Pagodas on the following Accounts.

On Account of Silver Sold	P. 5083	—	—	6757 — —
On Accr. of Broad Cloth dd. the Merchts.	1674	—	—	

He also delivers in two thousand One hundred twenty eight, 2128, Madrass Pagodas as so much more received by him of Linga Chitty in full of his Engagements for Silver to be repaid in Madrass Pagodas.

AGREED that two thousand Pagodas be Advanced the Export Warehousekr. Vizt.

For the Painters	P. 1000	P. 2000
To pay for Paddy	1000	

The Accountant reads the Journal Parcels for the month of June.

William Johnson Land Customer reads that Account for last month Vizt.

Choultry Customs	P. 349	8	7
Registring Slaves	—	8	—
			P. 349 16 7

ballance due from him Three hundred thirty five Pagodas twenty two fanams and Seven Cash 335. 22. 7, which he now pays in.

One of the Town Shroffs offering to the Board Two thousand four hundred Madrass Pagodas at Eight & three Quarters ℔ Cent Batta, it's agreed to purchase them & Two thousand six hundred & ten Current Pagodas the amount of them is now paid him.

The Board having met in the Sorting Godown to look over the Cloth last received from Fort St. David by the Ketch, and it appearing pretty good though somewhat inferiour to what they before sent us, it's agreed to remark the same to the Gentlemen there, to tell them we depend upon their utmost endeavours to get as much Cloth as possible notwithstanding the French have drawn off some of the Chemanaickpollam Weavers: And that we shall give their Merchants all necessary Assistance in Adjusting, when they come hither, the Accounts which they make their pretence for not paying their ballances to the Company.

As the Beaufort and Duke of Dorset will be ready for their Dispatches in two or three days, it's agreed to send on board the former for Vizagapatam Five thousand 5000 Madrass Pagodas, Three 3 Chests of Arcot Rupees & Sixty 60 Barrels of Gunpowder for the Use of that place And Ten thousand 10000 more Madrass Pagodas for the Use of Ingeram to be forwarded from thence.

As the Northern Cloths may be wanted to compleat our January Tonnage for Europe, and our Washers at that season may be so full of Work as not to be able to Cure them, it's agreed to order the Gentlemen at Vizagapatam & Ingeram to whiten all their Cloths that come in after the dispatch of the Galatea.

The Export Warehousekeeper delivers in his Indent to Bengal for Packing Stuff & Oil, in order to its being forwarded thither in our next General Letter: Wherein he desires it may be requested that the Rope and Twine may be sent us by the first Conveyance.

——FORT ST. GEORGE, AUGUST 1744——

The Board then proceeded to consider what to write to the Bay respecting the Tonnage to be sent us in December to fill up for Europe, and after some time spent therein, and in computing what Number of Bales we may almost, certainly depend on here, and from the Subordinates without Some Accident intervening not now to be foreseen; It was agreed to write for Room for Two thousand five hundred 2500 Bales besides One hundred and forty Tons of Pepper and to desire the President and Council to fill up the Tonnage of the Ships they send us with good Rice on the Hoñble Cómpany's Account: But for as much as the great Quantity of Tonnage the Gentlemen in the Bay will have to provide for this year and the disturbed State of the Country about them may probably lay them under a necessity of putting on board the Ships they send us more than their Charterparty Proportions of SaltPetre; It's agreed to desire in Such Case they will Consign Such Surplus Petre to us by a Separate Bill of Lading, That, should we be so fortunate as to encrease our Number of Bales beyond what we at present reckon upon we may have it in our Power to take out that Saltpetre and put Bales on board in it's stead.

AGREED to desire of the Gentlemen in the Bay to supply us with Saltpetre for our Store as usual and the Ships they send hither in December, with what the Commanders design to carry home at the low freight and also to remind these last that they compleat their Ships Companies in the Bay as they will not be able to Supply themselves with Men here.

The Petitions of John Hardcastle Surgeon of the Prince of Wales for Headmoney on Seventeen Soldiers by that Ship read & granted the 7th. May, And of

Thomas Bringley Surgeon of the York for Headmoney on Twenty Six Soldiers by that Ship read and granted, the 11th. June, being omitted in their proper places are entered hereafter.

General Letter N°. 87 from the President and Council of Fort William of the 7th. Ultimo read, inclosing Invoice and Bill of Lading for Rice and Brown Jugdea Baftaes sent us on the Sumatra and the Accounts of disbursements on and Stores supplied that Ship Amounting to Thirteen thousand two hundred thirty eight Rupees fifteen anaes and two Pice, as ℔ Abstract thereof entered hereafter.

As the Rice on board the Sumatra is of a sort that will not do at the West Coast, but in Case of Absolute necessity, its agreed to take it on shore here except One thousand Bags, which will serve their occasions 'till the Arrival of the Lapwing by which Vessel it's hoped the Gentlemen of Bengal will be able to send them a Supply of Patcharee Sort.

The Present Situation of Affairs on this Coast being considered, and that it may be proper to have some Vessel in the road to send about with advices upon any extraordinary Motions at Pondicherry (where there are two Europe Ships now lying) It's agreed to suspend the Dispatch of the Sumatra to the West Coast 'till the beginning of next month, and that the President give the Master Orders, in Case of any French Ships appear^s. in the Offing to bring her as near in shore as he can with safety.

The Import Wareh°.k^r. pays in Six thousand, 6000 Pagodas on Account of Silver Sold.

Sercary Veraugo, Nella Tomby Chitty & Jeneguda Tagapa Farmers of the Banksal Duties make their first payment of Two hundred 200 Pagodas, for Six months rent of that Cowle due the 1^st. of July last.

M^r Monson Export Warehousekeeper delivers in a Paper as now read and entered hereafter setting forth the great trouble he has taken with the Washers, to make them bring in the Cloth faster: And representing that unless some measures are taken to quicken that business, much of the Cloth now on hand, with what may be expected brown from the Northward will not be Cured in time for the next dispatch for Europe.

ORDERED that the Head Washers attend the Board on Wednesday next to Answer for their delatoriness.

The Board then taking into consideration by what methods to oppose the difficulties in the Investment complain'd of from Vizagapatam & Ingeram, the grounds of which we are Sensible are but too well founded, and the precarious Situation of the Investment in Bengal rendering it incumbent on Us to exert our utmost endeavours to prevent any disappointment in our own, it was at length Agreed not to increase the Quantity of Fine Cloths as proposed by the Gentlemen at Vizagapatam, but to allow the Merchants there & at Ingeram two Pagodas more ℔ Corge on the Ordinary Long Cloths, & one pagoda on the Ordinary Sallampores: Which though not equal to the Advances made by the French will we hope encourage their Merchants to bring in more of the Ordinary sorts.

AGREED to advise the Gentlemen at the Three Northern Settlements, of War being declared with France, to caution them to be upon their Guard & to take the most effectual means for Securing the Hoñble Company's Effects in Case of any Attempts from the Enemy.

For the more ready communicating any Advices between Us & Bengal during the war, it's agreed to place Tappy Peons at the distance of about three Gentue Miles between this Place & Metchlepatam, to order M^r. Hallyburton to do the same from thence to Maddepollam, as M^r. Saunders from Maddepollam to Ingeram, & the

Gentlemen at Vizagapatam from thence to Ingeram Southward and to Ganjam Northward; To which last place it's agreed to desire the Gentlemen in Bengal to place others, as we are informed was practiced in the last War.

There having no Goods been brought in from the Pettah towards the September Dispatch: It's agreed to enquire into the Cause of it; And that the Managers be Ordered to attend the Board next Consultation for that purpose.

PRESIDENT AND GOVERNOUR &CT. COUNCIL OF FORT ST. GEORGE.

HOÑBLE SIR & SIRS

I think it my Duty to acquaint Your Honour &ct. of the Difficulties I meet with in getting the Hoñble Company's Callicoes cured; The Washers on various Pretences have not brought in above 6 Bales a day at any time this year even in the fairest Season though I have frequently punished them for their default and as our Investment is happily so much encreased this year, and to be hoped will continue so to encrease, it will require (with the Northern Cloth that Annually comes to Us brown) Twelve or at least ten Bales to be brought in dayly from the Washers to have our Cloth on hand ready for the Ships, allowing for such Days as may be presumed will not be favourable for the Service; I humbly referr this matter to the Consideration of Your Honour &cn. that some measures may be taken to expedite this Important Business since all in my Power have proved ineffectual.

I am

HOÑBLE SIR & SIRS

WEDNESDAY THE 12TH.

NICHOLAS MORSE ESQR. GOVERNOUR PRESIDENT.
WILLIAM MONSON. THOMAS EYRE.
EDWARD HARRIS. WILLIAM JOHNSON.
JOHN SAVAGE. SAMUEL HARRISON.

Last Consultation read & Signed.

Captain John Taylor of the Sumatra having departed this Life on Sunday last, it's agreed that Mr. Charles Milne be appointed to the Command of that Ship in his Stead.

AGREED that Five hundred 500 Pagodas be advanced the Storekeeper for disbursements on the Sumatra and on other Accounts.

And that Five thousand 5000 Pagodas be sent overland to St. David's on Friday next.

The Head Washers attending pursuant to order of last Consultation, and the Board demanding the reasons of their Slowness in Curing the Honble Company's Cloths, they delivered in a Petition as read & entered hereafter urging in their excuse the great increase in the prices of several of the Materials necessary to their business and that without some Addition to the prices at present Allow'd them, they cannot support their Families by their labour & pay a sufficient Number of Cooleys for carrying on their Work, praying therefore an increase of Ten fanams ℔ Corge on the Ordinary & Middling Long Cloths & in proportion on the Salampores. To the said Petition they also Annexed a state of prices at present allowed them on the several Sorts of Goods they Wash for the Company with a Computation of the difference between the Actual Cost of Washing a Corgo of Ordry Long Cloth formerly and at present by which last it appears that they are really Sufferers by washing the Ordinary Long Cloths.

The Board having considered the matter of the Washers petition & being convinced of the truth of what they alledge about the encrease in the prices of their Materials: Considering also of what consequence it is at this juncture to get as much Cloth as possible cured for the Ships expected from the Bay in December and that if the remains of these People are not enabled to Support themselves by their labour at this business they must betake themselves to Tillage or some other employ, as many of them have already done; It was at length agreed not to make any Alteration in the present rates for the Finer Sorts of Goods; But to allow them One Pagoda twenty seven fanams ℔ Corge, for the Ordinary and Middling Long Cloths and thirty fanams ℔ Corge for the Ordinary & Middling Salampores, with which, though so small an Advance they Appearing pretty well Satisfied, promised their closest application to their business and withdrew.

The Betsey Scooner being bound into the Streights of Malacca, it's agreed to take that opportunity of Advising the Governour and Council there of the War being declared between the Crowns of England and France, and to desire their Care of a Letter, containing the like Advices for the York should she return hither, from China.

John Savage Rental General & Scavinger pays in the ballances due from him on the Rolls ending August 1742; The Accounts whereof were delivered in & entered on Consultation of the 30th. April last Vizt.

——*FORT ST. GEORGE, SEPTEMBER 1744*——

Mr. Joseph Smith being sent for and attending, was desired to give the Board his Sentiments on the State of our Fortifications and to let us know what he judged most immediately wanting and necessary to the better defence of the place in case of any Attempt from an Enemy; He told us the short time he had been here would not admit of His digesting his particular remarks into proper Order to lay before Us; But that he judged it absolutely necessary immediately to build a Bomb proof Magazine in some convenient part of the White Town, for holding our general Store of Powder, That upon the Island being too far off on any Emergency and not properly Commanded by Our Guns, and the Smaller Magazines in Town at present used for keeping the Powder when brought in from the Island, besides their being so damp as to damage the Powder if kept long in them, were rendered very insecure and liable to Accidents from the insufficient thickness of their Walls, and the Quantity of Ironwork about their Doors, which he proposed as we are obliged to make Use of those Magazines 'till another can be built to have render'd somewhat more safe by making New Doors to them and using Brass or Copper where necessary instead of Iron as at present.

He observed further that the Guns on Our Walls and Bastions are Mounted on Ship Carriages, which we should find very inconvenient in case of any call to Action as some of them being large Ten or Twelve Men would not be able to work them so briskly as three or four could if Mounted on Field Carriages: And how great a difference that would make where the present Establishment of our Gunroom is hardly a Man to a Gun Mounted, He thought it needless to say, He remark'd also that we are very barely Stored with Some Sorts of Warlike Stores and have none of Some others which would be of great Use; Of which he would deliver us a List, and with which he beleived we might be supplied in part from the other Side of India, before we could recieve them from England; He recommended also the bringing into Town a good Quantity of Bricks and Chinam, to be in readiness in Case of any Breaches being made in our Walls.

Before Mr. Smith withdrew he told the Board that should they think proper to alter the Gun Carriages he could not find upon enquiry that there were any Timbers to be had in Town fit for the purpose upon which and several other occasions in Case of an Attack it would be found of great use to have a Stock of Timbers & Planks on hand, & he believed we might be furnished with what is wanting from the Malabar Coast; Where upon the Board desired of him & he promised, with the abovementioned List of Stores to deliver in also a List of such Timbers & their Dimentions as he thought most proper for such occasions.

The Board being convinced from what Mr. Smith said of the necessity of such a Magazine as he proposed directed Mr. Monson and the Paymaster accompanied by Mr. Smith to chuse out the most proper part of the Town for erecting such a Magazine, and to lay before the Board a Calculate of it's cost formed from the Dimensions Mr. Smith should propose.

Ordered that the Paymaster bring into Town all the Bricks and Chinam he can procure before the Rains set in and that He set about making more as soon as the Season will permit.

Pandaram &c^{t}. Managers of Chindadree Pettah Attending pursuant to Order of last Consultation and the reasons being demanded why they had not brought in any Goods for the September Dispatch, They represent to the Board that the Sums which have been Advanced them, and for which they now stand Indebted to the Honourable Company have been at times paid into the Hands of the Weavers, from whom they have endeavour'd to recover all that was possible: But that several of those Manufacturers had left the place in the last Three or Four Years having sought relief in the Petta during the time of Scarcity and returned to their Habitations

——FORT ST. GEORGE, SEPTEMBER 1744——

when that ceased; that some were dead and many others in such Circumstances as to be unable to lessen any part of their Debts at present which in the whole are Pag^{s}. 9705. 2. 50, and that they the Managers being by the Death of Audiapa Narrain deprived of the Assistance and Support he gave to this Undertaking are incapable of carrying on the Cloth Manufactory, without a further Advance of Money: With that and the Assistance of the Board they might be able to procure some Cloth, and in a few Years they hoped to discharge their ballance due to the Company: To accomplish which they should use their utmost endeavours.

To this they added that Audiapa Narrain the first promoter and encourager of this Undertaking had laid out considerable Sums in order to encourage the Weavers and other Manufacturers to fix their Residence there, to which purpose he had Erected a Mahometan Mosque and two Pagan Temples which appears by his Accounts to have Cost near Sixteen thousand 16000 Pagodas, & which they mention as an instance how much he had the Welfare of the Pettah at heart: That by the loss of him the Pettah must greatly suffer unless it meets with some Support from the Board, the more so as the Estate of Audiapa is looked upon as insolvent, & his Family, if so render'd incapable of Contributing any more to its benefit and Service.

It was then observed to them that there had been also an Advance of Three thousand Pagodas which was to have been repaid some time ago but had not. To which Chintomby who join'd with Audiapa in this Affair replied that the Board had been pleased to grant them that indulgence for reasons which had been formerly offered, and were at the time deem'd satisfactory: That the building of Houses, Shops and a Choultry had Cost Four thousand Six hundred & ten Pagodas eight fanams and forty five Cash; That the Weavers had not yet been able to pay for their Houses, & therefore he hoped the Board would be pleased still to grant him some further time to comply with that Engagement.

The Several Matters before recited being taken into Consideration, The Board are of Opinion that as to the first part the performances of these People in the Pettah have given so little satisfaction for some time past, That were there any advances to be made them, there are small expectations of their being duely accounted for, unless some Substantial Person would undertake the Employment of the Weavers there, in such case some of the sorts of Cloth might be made there as before, and as the Juncans & carriage would be saved they might do it on reasonable terms, & in case of Troubles in the Country the having these People near us might be of service; But 'till such a person can be found, we think it best to hold our Hands, as we can now be supplied with these Sorts of Goods from the Country & are under no necessity of running any extraordinary Risque for the procuring of them: That 'till such offers are made Us, the Weavers may find Work from the Town Merchants, who may have opportunities of looking more narrowly after them than it's possible for us to do: However that we do grant the Managers any other Assistance in our Power that this design may not, if possible to be prevented, fail of the end first proposed: since in Case of any disturbances in the Country the Pettah would not want for Manufacturers and might thereby become useful to the Company in their Investment, when other means might fail. That as the present Managers declare their inability at present to pay in their Ballance due to the Company on Account of the Sums due from the Weavers that their Case be referred home, and in the mean time that we endeavour to recover all we possibly can from them, and to that end that it be recommended to them to dispose of what turned out Cloth is now on their Hands unfit for the Europe Market, and that y^{e}. Amount thereof be paid into Cash, And that as to the First Advance of Three thousand Pagodas, The Board for the reasons mentioned by Chintomby are induced to grant him some further time, and also because those Houses, Shops &c^{t}. remain as a Security for that Debt together with the Ground and Gardens, as indeed will every thing else belonging to the Pettah 'till both Accounts are clear'd and as such large Sums have been Advanced for this Account we presume the

TO THE HOÑBLE NICHOLAS MORSE ESQ^R.

PRESIDENT & GOVERNOUR &C^T. COUNCIL OF FORT S^T. GEORGE.

THE HUMBLE PETITION OF THE HEAD WASHERMEN.

SHEWETH

THAT it is the greatest Misfortune to your Pet^rs. to have incurr'd Your Honour &c^a. displeasure for not bringing in the Company's Cloth faster but your petitioners beg leave to set forth the Reasons from the hardships we labour under :

FIRST, When Paddy was sold at 16 Mercalls for a Pagoda only 3½ Mercals ℔ Corge were placed to your Petitioners Account for Congee, but Governour Benyon was pleas'd to Order 4 Mercals to be used on a Corge of Long Cloth Ordinary and on the rest in Proportion, but Allow'd your Petitioners no advance pay, thô Paddy at that time was at 13 & 14 Mercals ℔ Pagoda, this difference is so Considerable as about 3 fan^s. ℔ Corge, yet our Loss by Firewood is Still greater for this Article is the Principal in our Expences & this Your Hon^r. &c^a. and all the Inhabitants are but too Sensible has been rising by Little & little for many Years in so much that what is requir'd to boil a Corge of Long Cloth now cost 20 fan^s. which only cost 15 when the present rate of our pay was established ; shell Chinam also is so difficult to be got that what Cost then 2 fan^s. is now 5 ; and a sort of Clay Necessary for Us that comes from Nagore is risen 1 Fanam ℔ Corge, Soap Limes, Blew &c^t. small Articles used on the fine Cloths are likewise much risen, but our Consumption of them is too small to trouble Your Hon^r. &c^a. with the particulars but shall compute the difference together at 1 Fan^m. ℔ Corge. Another grievance we beg leave to mention to your Honour &c^t. that lyes heavy upon Us, is that since the Hoñble Company delivers & pay for Washing the Brown Cloth, we are charged for all damage by Stones, white Ants, Rats or in Boiling, which was not so white the Merchants Accounted with Us for Washing as they can inform Your Hon^r. &c^t. Your Petitioners some time ago acquainted the late Governour with this, who order'd your Petitioners to mend what was damaged & promised to Speak to Chintomby to pay the Cooley, which we have not yet received the benefit, but entreat your Hon^r. &c^t. will please to confirm ; Upon the Whole we beg leave to Assure Your Hon^r. &c^t. that Materials of every kind necessary for our Business are so much risen that we can no longer Support our Families by it and allow Wages sufficient to Cooleys to Work for Us, what little we get by the fine Cloths being sunk in the Ordinary, We therefore depend wholly on your Honour &c^t. that you will please to consider our Circumstances & encrease our pay half fanam a Piece on the Ordinary and Midling Long Cloths & in proportion for the Salampores, and we shall for ever remember Your Honour &c^t. goodness and demonstrate our Acknowledgements by our Pain & Deligence in the Hoñble Company's Service.

Your Petitioner Shall Ever Pray &c.

General Letter N^{o}. 88 from the Deputy Governour and Council of Fort S^{t}. David of the 10th. instant read, inclosing Monthly Papers and Accounts with an Indent for Stores and requesting a Supply of Ten thousand Pagodas.

AGREED to send Five thousand Pagodas over land to S^{t}. Davids this Evening.

AGREED that Five thousand Pagodas be advanced Gundaveddy Vencaty Rama & Nella Chitty, on Account of the Investment.

——*FORT ST. GEORGE, SEPTEMBER 1744*——

The President acquaints the Board that he has received Advice the Fleury is to be sent from Pondicherry to protect the Trade on the Malabar Coast, & that the Chermant another Ship they expect from France is to be sent to Mahee to load with Pepper for Europe.

AGREED to communicate this Advice to Tellicherry and Anjengo as well as that of War being declared with France, least by any Accident the Intelligence the President Dispatched express to Messrs. Geekie and Bourchier on the Arrival of the Swift Snow should have miscarried.

As it is probable the Season being So far Advanced that the Princess Augusta may proceed directly to the Bay, though perhaps not Arrive there 'till after the dispatch of the Lapwing: It's agreed to referr to the Gentlemen there, if on opening the Advices by her to Us from the West Coast they find the Deputy Govr. and Council of Marlborough are in want of any immediate Supplies, whether in such Case it may not be proper to return the Princess Augusta with them directly, but to desire if the Lapwing is not Sail'd when the other Arrives, that they will then send the latter to Us with Rice or what else they may think proper, and that they will send twenty or Thirty Barrels of Gun Powder to the West Coast on the Lapwing.

AGREED also to desire of the Gentlemen in the Bay that should the Wager and Godolphin arrive there having any Military or Stores on board for this place, they will send them to us by the first Conveyance.

Mr. Monson and the Paymaster having been with Mr. Smith to look out the most proper place in Town for building a Bomb proof Magazine on, acquaint the Board that the latter had made choice of part of the open space between the Portuguese Church & the North Wall of the inner Fort as the driest situation, & the only Spot where there is room sufficient without the inconvenience of it's adjoining to some of the Houses or their Cookrooms Besides being near the Centre of the Town, and most open to publick View, it is less exposed to any Mischievous Attempts, that he proposed it should contain One thousand Barrels of Powder, for which the following dimensions are required Vizt.

Length, within	Feet 50 Fifty.
Breadth, within	20 Twenty.
Depth of the Foundation from the Surface	12 Twelve.
Breadth of the Foundation below the Surface	12 Twelve.
Breadth of the Wall, above the Surface	10 Ten.
Height of the Wall, above the Surface	9 Nine
Height of the Arch, from the Wall to the Crown ..	20 Twenty.
Thickness of the Arch	10 Ten.

All to be laid in Chinam and inclosed with a Wall at about Twenty Feet distance of Twelve Feet heigh and two Feet thick. The Cost of all which, it's computed will Amount to somewhat less than Four thousand one hundred Pagodas, as by a particular Calculate thereof now delivered in by the Paymaster and entered hereafter.

The Board concurring with Mr. Smith as well in the Choice of the Situation as the necessity of the Work Ordered the Paymaster to set about it immediately that the Foundation may be brought up to the Surface of the Ground before the Rains Set in by which means it will be well settled before the Superstructure is Carried on after the Monsoon.

The particulars of the Extraordinary Expence in his Account are entered hereafter.

Samuel Harrison Storekeeper reads that Account for last month, ballance due from him One thousand forty two Pagodas twenty fanams & twenty eight Cash, which is continued in his Hands.

The President acquaints the Board that on some reference he had occasion a few days ago to make to the General Books: He observed that the Town rent had not been paid for the Year ending the 30^th. June 1743, and found upon Enquiry that the

— FORT ST. GEORGE, SEPTEMBER 1744 —

same had not been demanded in the time of Mr. Benyon, from whence he was induced to think the late frequent changes in the Nabobship might have occasioned it to be forgotten, and he had therefore designed to propose to the Board whether the Province being now more settled: It might not have a very good Effect on the Minds of the Governing Powers, with regard both to Our Honble Masters Affairs as well as their Reputations & our own, if we should at a proper time remind them of the Omission and offer payment of that Years rent, but that such his design was rendered abortive by the demand made of it yesterday, when he found that it had not escaped attention above; But that the reason of Our present Nabob's not demanding it with the last years, was it's being due to Coja Nahmah Tulla Cawn's Jaggeir, And that the Death of his Father, had occasioned it's lying so long Undemanded. ORDERED that, that Twelve hundred 1200 Pagodas be paid out of Cash.

AGREED to send Five thousand 5000 Pagodas overland to Fort St. David this Evening and Five thousand 5000, more on Friday next And

AGREED to send a Supply of Five thousand 5000 Pagodas overland to St. Davids this Evening; To send thither on the Ketch such of the Stores Indented for from thence as we can spare with Fifty Barrels of Powder, which we think as much as we ought to trust on such a Vessel and a Supply of Paddy on a Country Vessel that will sail thither to day or tomorrow.

The President reads the Cash Account for last month, ballance remaining now compared with the Cash Chests Thirty three thousand two hundred fifty four Current Pagodas thirteen fanams & twenty four Cash: And One thousand & thirty one Madss. Pagodas.

AGREED that the following advances be made out of Cash Vizr.

1500 Fifteen hundred Pagodas to the Export Warehousekeeper for the Painters.

2000, Two thousand to the Paymaster towards the Charges of the month.

3000, Three thousand to Tellesinga Chitty & Nellamoota Comrapa Chitty on Acct. of the Investment, and

4000, Four thousand for Attaputty Comrapa & Rangomar, Rangapa Chitty on Account of Redwood delivered and to be brought in by them, this to the Export W.H.Kr.

The President observes to the Board that as there are Tappies now laid on the road as far as Ganjam for the Carrying Advices to and from Bengal, it will be highly necessary to have some person to reside at that place as there are frequent stoppages of the Cossids in those parts, occasioned by disputes between the Moors and Gentues, that by a proper Application to the respective Governments on such Occasions means may be found to obtain a passage for the Peons who are charged with the Letters, so as to prevent their being detaind on the Road: Besides which there is another Affair of some Importance which may also require a Person's being fixed there for some time, which we shall take the liberty to mention on another Occasion; It is therefore Agreed to Nominate Mr. Andrews for that Service, and that he proceed thither as soon as he can with Convenience and as we are informed there is near that place a very large City named Brampore, where there are a great Number of Weavers some said to now want Employ, that he make it his Business to enquire particularly into the State & condition of that City and People, and inform himself if the Ordinary Sallampores of the Companys Musters can be manufactured in that place: Which if to be done we hope may prove of service to Our Honourable Masters, since We have of late Years been furnished with very few Sallampores from Vizagapatam & the Northern Settlements: And the late Advices from those parts giving us more reason to fear a Decrease of those Investments than the carrying them on in a Successful manner.

AGREED to send with Mr. Andrews [...] Five hundred Rupees to defray his Expences on the Ro[ad] and at Ganjam, and also some Broad Cloth and other things proper for the presents he may think it necessary to make if he finds he is likely to do anything there.

AGREED also to send with Mr. Andrews to Maddepollam the Broad Cloth Mr. Hallyburton indented for the 12th. Ultimo.

——FORT ST. GEORGE, OCTOBER 1744——

The Owners of the William and Sarah Applying to the Board for some consideration for the Freight of the Treasure she carried to Vizagapatam in March last, it's agreed to allow them Sixty Pagodas to be paid there at M^r^. AGREED that nine hundred 900 Pagodas be advanced the Export Warehouse-keeper for disbursements, And Three thousand 3000 Pagodas to Sunca Vencata Ramah and Ambaltaudy on Account of Investment.

General Letters read VIZT.

No. 117 and 118, both from the Deputy Governour and Council of Fort St. David of the 6th. and 9th. instant; The first acknowledging the receipt of the Money sent them the 31st. Ultimo; The other inclosing monthly Papers & Accounts remarking on a parcel of Cloth brought in from Sheally a Village near Chemanaickpollam which they had distinguish'd by marking the Bales with the Name of the place; requesting permission to make an Addition to their Sorting Godown representing that the Factory House at Cuddalore is in want of some repairs that are computed at Four hundred Pagodas Advising that the Honourable Company have sustained some small damage by two of their Boats being sunk in a fresh Gale of Wind and desiring Us to send them a New Seal for their Cowles &ct.

No. 119 from the Governour & Council of Pondicherry dated the 17th. instant N.S. which and the Papers it inclosed are read as entered in their Translates in our Letters Received the latter being Copies of some Articles of Agreement concluded between the Settlements of Mahee and Tellicherry in the Years 1728 and 1742, and of a proposal said to be since offered by Mr. Geekie for confirming the same, and also to extend the Conditions with regard to the Vessels on that Coast from Anjengo to Goa subject however to the Approbation of Bombay and Pondicherry. In the letter the Gentlemen of Pondicherry express a desire of including forty Leagues from the Land between those Ports; and that the Agreement should extend within those Limits to all Ships under the Colours of each Nation except Kings Ships which only they say are not under their Authority; To such an Agreement they invite us, and desire to know how far we are Authorized to co-operate with them on the occasion.

The Board having yet received no information from Tellicherry concerning this proposal or the design of it, and room being thereby left us to doubt whether it may not be a Scheme contrived by Mr. Geekie for the better execution of some purpose respecting the Company's business at Tellicherry and to Gain time to get in the Pepper that may yet remain to be transported from the Adjacent places, in which Case it may be proper to Answer the Pondicherry Letter in such a Manner as may not disconcert any Measures Mr. Geekie may find it necessary to pursue at this Juncture: A caution that may not be the less necessary on Account of two Ships of Force that went lately for Mahie from Pondicherry: It is therefore judged most prudent not to appear averse to receiving any proposals of such a Nature though we do not hold ourselves Authorized to Concurr in them, but to Affect a Seeming Inclination to Accide to such as may be termed For the common benefit, which may perhaps amuse them till the Gentlemen of Bombay have determined on what is referred to them from Tellicherry which we presume they will do in such a manner as

——FORT ST. GEORGE, NOVEMBER 1744——

will ease us of any further Correspondence about it For that part of the Letter wherein the Gentlemen of Pondicherry seem somewhat Anxious to know how far our Authority extends over the Commanders of our Companys Ships it's agreed for many reasons that may make it improper to satisfy them in that point, to evade giving them a direct Answer by telling them it seldom or never falls under our province to dispatch our Company's Ships to the Malabar Coast.

AGREED to transmit a Copy of the Translate of the abovementioned Pondicherry Letter to Bombay with a Copy of our Answer thereto.

The Sale of the last Silver not supplying our Cash equal to the demands of our own and the S^{t}. Davids Merch^{ts}. it's agreed and ordered that the Warehousekeeper endeavour to dispose of some of the Rupees we have by Us.

JOHN SAVAGE. SAMUEL HARRISON.

Last Consultation read & Signed.

The President addressing himself to the Board told us he was in hopes the Correspondence we were forced into by the Gentlemen of Pondicherry had been put an End to by our Letter of the 13th. instant, or that it would at least have lain dormant 'till the Arrival of some of our Shipping yet expected from Europe, by which we may possibly receive some Orders that may warrant us in continuing it but that contrary to Such his hopes they had sent us another Letter dated the 2d. December N : S : on the subject of which he had desired this meeting as soon as he could get it Translated: The same being accordingly read in its Translate, as entered under N°. 121, it was found to import that in compliance with a Letter from their Company bearing date Paris the 14th. April 1744, advising of War being declared between the Crowns of England and France, and signifying their Inclinations for maintaining an Harmony & good Intelligence with the English as one of the Trading Nations in the Indies, they, (the Gentlemen of Pondicherry) propose to Us as they have done to our Presidency in Bengal, and now do in an inclosed Letter they desire Us to forward to that of Bombay, the entering into an Engagement for establishing respectively a Tranquility from this side of the Cape of Good Hope as far as China & beyond it, & to that end that we would give directions to our Several Subordinates as well as to both the Company's and our private Shipping not to be Aggressors in any Shape whatever against those of the French Nation, as they had done on their parts.

AGREED to return for Answer to the above Letter that we have not as yet received any Powers from Our Company to enter into such an Agreement, but that so authorized We should not be backward to embrace the offers they make us.

Other General Letters read VIZT.

N°. 122 from the President and Council of Fort William of the 29th. September in Answer to what we wrote them the 23d. of that month by the Beaufort & Duke of Dorset about the Copper we sold here, Our Indent for Packing Stuff, & the Europe Captains Supplying themselves in the Bay with the Saltpetre at the low Freight and the Men they may want of their Compliments; Advising of their having made up matters with their Nabob, though at a great expence: That they had Reports of two large Armies of Morattas marching to invade that province, and of the Arrival of the Swift Snow & Princess Augusta with Mr. Lennox on board the latter from Fort Marlborough, whither they should send by the first opportunity some Rice and Gunny bags, and that they purpose to send the Princess Augusta directly hither with Rice; Advising also of some Occurrences respecting Our Honourable Masters Ships Colchester, Severn, Duke of Lorrain, Neptune, Grantham, Stafford and Caesar.

N°. 123 and 124, both from the Chief & Council of Vizagapatam and dated the 8th. instant, The first advising of some disturbances between the Nabob & Rajahs which they expected soon to be accommodated when they hoped for better performances from the Upparra Merchants & in Answer to the directions we sent them about getting their Cloths hither in December; The other serving only to accompany the foregoing Packet from Bengal.

TO THE HOÑBLE NICHOLAS MORSE ESQ^R^.

PRESIDENT AND GOVERNOUR &C^T^. COUNCIL OF FORT S^T^. GEORGE.

HOÑBLE SIR & SIRS

I am directed by the Honourable the Mayor's Court to acquaint Your Honour &c^t^. Council with the Accompanying Order of Court which they have thought necessary to make, believing it will greatly contribute to relieve the Natives and others under this Presidency that may hereafter have occasion to Apply themselves for Justice, and which they hopes [*sic*] will meet with your Approbation.

I have the honour to be with the greatest respect

HOÑBLE SIR & SIRS
Your most humble and most Obedient
Servant
NOAH CASAMAJOR,
Reg^r^.

FORT S^T^. GEORGE
26^TH^. NOVEMBER 1744.

BY THE MAYOR'S COURT OF MADRASSPATNAM.

WHEREAS many Suits for Several Years past have been Commenced by and against the Natives and others, within the Jurisdiction of this Court, on claims of very long Standing, To the great disquiet of the Inhabitants of the Place; The Issue of many of which have been, That the Court have laid under a necessity to determine the same on presumptive and Circumstantial proofs, when earlier Applications would have set the Matters in Clearer lights, and consequently enabled them to Judge thereof with

much greater certainty. AND WHEREAS it is the Opinion of this Court That such Causes as draw their Originals from so Obsolete times, are often by the Complaints rather prosecuted from a Spirit of prejudice or Revenge than a just Right: and Probably, nay it's feared, have and may be attended with ill Consequences to Young Branches of Families among the Natives; Who have been, and now are frequently sued for Debts and Contracts entered into by their Ancestors, even before any of the Defendants were born, and when all the Witnesses that were privy to the Transactions are Dead. WHEREFORE as This Court is empowered by the Royal Charter to Frame such Rules of Practice, and to do all such other things as shall be found necessary for the Administration of Justice, and the due Execution of all or any of the Powers given them by the said Charter and as by Act of Parliament all Actions on Specialties are limited to twenty years, and Simple Contracts to six years, from the time the Cause of Action commenced (except as therein and hereinafter is Excepted) AND as this Court cannot determine whether the Cadjans and papers, made use of by the Natives, commonly Called Bonds, ought to be deemed Specialties or Simple Contracts, as they are without any Certain Form: And as it is Apprehended the Restraining them to a Medium Term for the Prosecution of their Actions, rather than either of those prescribed by the Statute of Limitations will be more beneficial and better Adapted to the Constitution of the Place. THIS COURT doth therefore Order and direct That no Suit, Action, Bill or Plaint shall be commenced or received in this Court from and after the Twentieth day of November which shall be in the Year of our Lord 1746 Unless the same shall be prosecuted within Ten Years from and after the Cause of Such Suit or Action has Arisen or shall Arise. PROVIDED Nevertheless That nothing herein contained shall be Deemed Construed Accepted or taken to Debar any Infant under the Age of Twenty one Years, Persons of unsound Mind, imprisoned, or beyond the Seas, from their Actions, so as they do take the same, within the time before limited, after their being of full Age, of sound memory, at Large, and returned from beyond the Seas, as other Persons, having no Such Impediment should have done.

Per cur
NOAH CASAMAJOR,
Register.

TO THE HOÑBLE THE MAYOR'S COURT
OF MADRASSPATNAM.

GENTLEMEN,

I am ordered by the President & Council to Acknowledge their having yesterday received from your Register the Copy of an Order you think it proper to make against the admitting into your Court any Suit, Action, Bill or Plaint from and after the 20th. day of November which shall be in the year of our Lord 1746 unless the same shall be prosecuted within Ten years from & after the Cause of Such Suit or Action has Arisen or shall Arise, and to acquaint you, that, having perused & fully considered the said Order & the reasons on which the same is founded they think it so well calculated for the common good of this place and are so fully convinced of its Usefulness & Salutary tendency they will transmit it by the first opportunity to the Court of Directors; recommending it to their Approbation & hoping that through them it will obtain the Sanction & Authority of a By Law.

I have the honour to be with great Respect

GENTLEMEN
Your most humble Servant

The President acquaints the Board he has received Advice from the Country that upon the repeated reports of the Design of the Morattas to invade this and the adjacent provinces, our Nabob set out some days past to join his Forces with those of the other Subahs of Corrapa and Cundanore to oppose the Morattas and that they are to be further Assisted by a detachment from Nizam's Army which was already set out under the Command of Sied Laskar Cawn to meet the others at the Passes; But the same Advices imported also that Messengers have been dispatched from the United Subahs to offer the Morattas a pretty large Sum of Money, which it was judged by most people would be preferred by the King of Sittarrah to the uncertain chance of a Battle with the combined Forces of those Subahs.

Agreed to communicate these Advices to the Gentlemen at S^{t}. Davids.

—*FORT ST. GEORGE, DECEMBER 1744*—

Mr. Joseph Smith attending represents that some Alterations are wanting at the Island Powder House where the Powder is made to render it capable of two Stamps more and that for it's greater Security Brass or Copper ought to be made use of for the Bands, Nails, Rivets &c^{t}. instead of Iron as at present. ORDERED that the Paymaster make such alterations there as Mr. Smith has described, and under his direction to the Workmen.

The President acquaints the Board that this being the usual time of the Year for Tomby Chitty, and his Partners to pay in the Five thousand Pagodas towards the discharge of their ballance he had sent to him to put him in Mind thereof and to demand the same. but that he had received for Answer that they could not possibly make that Payment good at this time, they having received no part of the Broad Cloth that had been sent from Europe this Season; That as the time drawing nigh for the making up the Merchants Accounts in order to their being transmitted to Europe makes it necessary to come to some determination with regard to this demand he had therefore directed Tomby Chitty and his Partners with Telesinga Chitty and Nellamoota Comrapa Chitty to be in Attendance here this day.

The said Merchants being called in the Board demanded of Tomby Chitty and his Partners the reasons of their not complying with the Agreement they made in August 1739 to pay in Five thousand Pagodas annually in discharge of their ballance and received the same Answer from them as the President repeated, to which they added that they could not urge any thing against the justness of the Debt, and were sensible they were obliged to pay it but that the low Circumstances we knew they were reduced to by the losses they sustain'd in the service of the Honourable Company of which this Board as well as the Company have hitherto shewn so generous a Compassion render'd it impossible for them to pay that annual Five thousand Pagodas without the indulgence of a share of the Broad Cloth was continued to them, and which they could not help thinking was engaged to them by the Board in 1739 'till their Debt should be cleared.

The Merchants being directed to withdraw, that the Board might more freely consider of and debate on their Plea, and a reference being thereupon had to several Passages relative thereto in the Consultations of 1739 and the Subsequent Letters on the Subject to and from England, It appeared that the Chittys then applied for the Broad Cloth as a means to enable them to pay their Ballance, yet we find no more is therein promised them than the Two hundred Bales, but that it has been allowed them since that time to 1743, after which they were called in and it was remarked to them that it was not clear by the passage of the Consultation of the 21st August 1739 then read to them, that the Board were obliged further than for a Share of the Broad Cloth that Year: Upon which Telesinga Chitty said he could not tell how that passage might be worded on our Consultations but he knew his own intention at the time the Agreement was made, that it had been delivered them ever since 'till this year, and he had always understood that such a share of the Broad Cloth was engaged to them thereby 'till the Debt of his Brother and Partners was clear'd, and 'twas fully in that opinion that he undertook what he then did, and the Board and all other reasonable Men must know, it was not the Profits on the two Hundred Bales granted them in 1739, or on what they had received since that could enable his Brother & Partners to pay of a Debt of 38000 Pagodas: And with some little Warmth added that he had always esteemed the indulgence of the Broad Cloth as a very great obligation, on Himself & Family; That a grateful Sense of that obligation, and a concern for His Brothers reduced Circumstances were the only Motives which influenced him to engage in the Investment in hopes therby [*sic*] in time to extricate his Brother and Partners out of the difficulties they laboured under, and that the Company might be paid their due: That those hopes were all the advantage he reaped by engaging in a business to which he has sacrefised [*sic*] his whole time & Attention and in which he has exposed his fortune to very great risques, that the Brokerage as well as the profits on the Broad Cloth that had been delivered them were all thrown into the Payments, besides a Sum annualy [*sic*] collected amongst the Family, by

those helps alone his Brother had hitherto been able to make the Payments and reduce the Debt to about 13000 Pagodas: That if the Board thought fit to let them have the Broad Cloth he would engage that the Five thousand Pagodas now demanded shall be paid before the Ships sail for England, and by that indulgence being continued another Year and his Assistance he did not doubt but his Brothers ballance would be very near if not quite clear'd; But if the Honourable Company or we resolved to discontinue that indulgence he should see it in such a light as might serve to check in some measure his Assiduity to a business by which he risqued his fortune & got nothing but the satisfaction of rendering himself serviceable to the Honble Company and his unfortunate Relations: That he Appeal'd to the Board if he had not done every thing on his part that he had engaged for, having Invested for the Company near 200000 Pagodas since his entrance into this Business and therefore he hoped he had some title to a favourable regard and that it might also be extended to his unhappy Brother, Concluding with a desire, that what he had here offered might not be taken amiss in regard to any expressions he had made use of, since it was on an Affair which had given him the greatest concern of Mind.

The Board having again ordered the Merchants to withdraw spent some time in debating on what Measures might be proper to take in this Affair, and at length agreed to wait the Arrival of the Shipping from Bengal, by whom we may expect to know more fully our Honble Masters Pleasure in these matters, before We proceed to extremities with them, with which they were again called in & acquainted and then dismissed.

The Register of the Mayor's Court attending acquaints the Board that on balloting for the Election of a Mayor for the Ensuing Year the Votes were found divided as follows.

Four for M^r^. Foxal
Four for M^r^. Starke and

One for Captain Tullie; Whereupon the Court had ordered him to wait on Us, and desire our Opinion how they were to Act and whether the Mayor had a Casting Vote in such a Case, or whether they were to proceed to another Ballot. The Charter and Instructions being silent in this Instance and no Precedent occurring paralel [*sic*] thereto, though it was remember'd that in M^r^. Hastings's time our Honourable Masters did not allow their President a Casting Vote: The Board directed the Register to give it the Court as our Opinion that there is no Casting Vote in the Mayor, unless it had been so directed by the Charter, and that therefore the Court ought to proceed to another Election. The Register in a short time returning acquainted the Board that on another Ballot the Choice had fallen on M^r^. Sidney Foxal, who Attending with the other Members of the Court takes the Oaths of Allegiance and Office as did also M^r^. John Savage Chosen Sheriff for the ensuing Year.

Before the Register withdrew, he paid in by order of the Court Fifty Pagodas for a Fine levied by them on Henry De Veil, one of their Attorneys.

The Import Warehousekeeper pays in Two thousand two hundred ninety nine Pagodas thirty four fanams 2299. 34. — on Account of Broad Cloth delivered the Merchants and acquaints the Board that he has received offers for the Sale of Five thousand Pagodas worth more of Rupees at the following prices Viz^t^. Three thousand Pagodas worth at Three hundred and twenty nine, & Two thousand Pagodas worth at Three hundred and twenty Eight for an hundred Pagodas, which it's agreed that he accepts.

AGREED that One thousand 1000 Pagodas be advanced the Export Warehousekeepers for the Painters-Thirteen hundred and forty Pagodas twenty two fanams and fifty five Cash 1340. 22. 55, to Sunca Vencaty Rama and Ambaltaudy, and the like sum 1340. 22. 55, to Gundaveddy Vencaty Rama & Nella Chitty on Account of the Investment.

The President acquaints the Board that the Orders he received by the Swift Snow from the Secret Committee making it necessary to purchase a Vessel on the Honourable Company's Account, and the Eltham being the only Ship that could then be got he had bought her of her Owners, and that the purchase of her with the Charges of Storing and Impressing her for Four Months amounted to Three thousand nine hundred & nine Pagodas twenty two fanams and thirty five Cash 3909. 22. 25. But as the Service she had lately performed required Secrecy, and to Avoid giving any Alarm to Our own Inhabitants or elsewhere he had deferred, 'till now to tell us of the Ships being bought on the Comp̃y's Account or to reimburse himself out of Cash, the Amount of what he was in Advance for her.
